About Perfumes!

We have made our stock of perfumes embrace the best odors of the best makers.
For instance, the English Violet and English Flowers Extract surpasses, in our judgment, that of any other make. At the same time the rose odor made by the same firm may not be quite so good as that of another perfumer. Hence we select one brand of violet, another of white rose, etc., thus giving our patrons a selection of the best to be had without having to pay any fancy prices.

DISFIGURED FOR LIFE

Our little girl's humor commenced with a tiny sore on one nostril, but it kept on spreading till we thought she would never get it cured. We tried everything we could get, but it kept getting larger all the time, till *both nostrils, the upper lip, a part of the lower lip, and up one side to the eye, were a solid sore.* We thought there was no cure, and that she would be *disfigured for life.* Finally we tried CUTICURA REMEDIES. We used CUTICURA RESOLVENT and nearly a box of CUTICURA (ointment), and in a short time she was entirely well, with nascar or trace of the humor.

Paris Newspapers Comment on American Demands.

Some Sharp Views Upon American Diplomatic Methods.

Think They Are Something Little Less Than Brutal.

Says Americans Presented Their Reply in English and Left Spaniards to Translate It.

PARIS, Nov. 10.—The newspapers of this city, after yesterday's meeting of the peace commission, seemed to have gathered from some source or other the impression that the Spanish commissioners have cause for complaint against the Americans because the latter presented their replies to the Spanish proposals in English and without Spanish translation of the document. There is no basis for complaint on the subject.

The president of the Spanish commission, Senor Montero Rios, and Judge Day, the president of the American commission, agreed that, owing to the length of the document, all concerned might be spared the reading of matter which is usually translated in writing into Spanish for the benefit of Senor Montero Rios and the two members of the Spanish commission who do not understand English.

Each side, up to the present, has made its own written translations, but the Americans alone have supplied an interpreter, instead of furnishing an interpreter for their side, as they might have been expected to do.

The American interpreter is Arthur Ferguson and the Spaniards have marvelled at the facility with which he did his work. They have never once checked him or corrected him in the slightest degree.

NEWSPAPER COMMENT.

In view of the facts in the case, some of the references of the Paris newspapers this morning are interesting.

Regarding yesterday's meeting the Figaro says:

"The American commissioners contented themselves with producing a long memorandum written in English. After having deposited this upon the table they left the task of translating it to the Spanish commissioners, apologizing courteously for its length and the difficulties of translation. They then retired. The situation then, at present, is as follows:

"The Americans persist in refusing to take over the Cuban debt and exact the cession of the Philippines. The Spaniards on their side, refuse to cede the archipelago."

The Petit Bleu says:

"All diplomatic forms were outraged by the Americans at yesterday's sitting. It is customary in such cases to read the memorandum presented to the other side. The Americans, however, contented themselves with throwing it, written in English, upon the table."

Continuing the Petit Bleu says:

"A member of the Spanish commission has remarked that his colleagues can never admit the claims of America in regard to the Philippines.

"The protocol says the treaty of peace shall determine the disposition and control of the Philippines, and the Americans now claim that 'disposition' means that the colony shall be surrendered to America. This Spain can never admit."

The Petit Bleu expresses its belief in an early rupture of the negotiations.

The Rappel says:

"A Spanish commissioner has declared that the Spaniards will yield only to force in the question of the Philippine Islands."

Continuing, the Rappel asserts that it anticipates the rupture of the negotiations at an early date, adding:

"The country which started out as the liberator of Cuba, now threatens warm, although her demands as to Cuba have been acceded to, because she cannot annex territory which played no part in the bringing on of the war. We preferred the liberator of Cuba to the oppressor of Spain."

HEAVY SNOW STORMS.

Michigan in Mantle of White--Street Cars Stopped in Kalamazoo.

KALAMAZOO, Mich., Nov. 10.—Two blocks of telephone, telegraph and trolley wires and poles on Portage street were broken down today by the weight of the snow on the wires. Street car traffic is suspended and the city may be possibly in darkness tonight.

DETROIT, Mich., Nov. 10.—A heavy rain is falling over southern Michigan with light snow in some portions. Lansing, Grand Haven and Dapeer all report snows, the latter town having three inches of it. Inspector Conger, of the Detroit weather bureau, predicts that the storm will last until tonight or tomorrow morning, with the temperature growing slightly colder.

SOMETHING IS WRONG.

Trouble in the American Consulate in the City of Mexico.

CITY OF MEXICO, Nov. 10.—The condition of the affairs in the American consulate general here attracts much attention. Vice Consul Bennett, having been suspended and forbidden entrance to the consulate by Consul General Barlow, who has not made known the grounds for his action, Colonel Bennett's friends assert that he has been unjustly treated, and that due cause should be shown for his removal, which in reality must be approved by the state department at Washington. It is likely to demand a full investigation of all the affairs of the consulate. The American minister is reported to be examining into the matter.

GALES RAGING.

Storms on the Lake Dangerous to Shipping.

A Vessel's Crew Rescued by Life Savers at Chicago—Lower Lake Storm Most Violent.

CHICAGO, Nov. 10.—The tow line of the schooner Ironcliff, which was being towed into port today by the steamer Iron Duke, parted in the furious northwest gale and the schooner drifted rapidly southward. Her anchors finally held when the apparently doomed schooner was about 300 feet outside the inner breakwater, off Van Buren street.

For two hours three tugs tried in vain to pull her into safety. The crew in the meantime had clung to the schooner, although seas were rolling over her from stem to stern.

Finally signals of distress were hoisted and the life saving crew started at once for the wreck. The Ironcliff brought a cargo of salt for Joy, Morton & Co. She is owned by Parker and Millen, of Detroit.

The life saving crew, with the assistance of two tugs, succeeded in saving the crew of the Ironcliff after much hard work. Unless the wind and sea abates the schooner will be lost.

The life boat was nearly swamped several times, but after a long hard struggle the crew succeeded in getting her under the lee of the Ironcliff which by this time was nearly water-logged and evidently sinking. One by one the seven men composing the crew of the Ironcliff jumped into the waves and were dragged into the life boat. Some of the men were unconscious when rescued. Soon after the Ironcliff sank in shallow water. She will probably be a total loss.

The storm today was even worse than that of October 25th and 26th. The wind blew sixty miles an hour.

STORM EASIER FARTHER NORTH.

MILWAUKEE, Wis., Nov. 10.—It is raining here today but there has been no gale such as prevails towards the southern end of Lake Michigan. The Goodrich steamer Indiana, which left Chicago last night, arrived here safely on time. She reports a rough trip. A few other vessels which are due here are expected shortly.

Agents of all of the steamboat lines in the city report all vessels due here accounted for. The wind is blowing about twenty miles an hour in this vicinity and the weather man says the storm is rapidly passing over this section towards northwest.

THICK WEATHER AT CLEVELAND.

CLEVELAND, Ohio, Nov. 10.—Probably the thickest weathor of the season prevailed on Lake Erie today. A dense fog was accompanied by a heavy down-pour of rain. Inquiry at the offices of leading vessel owners and ship brokers developed that while they had received word of a heavy gale prevailing on the upper lakes no disasters had been reported.

The local forecaster states that a heavy northwest gale will prevail over the lower lakes within a few hours.

LOST OFF PELEE ISLAND.

POINT PELEE LIGHTHOUSE, Lake Erie, Nov. 10.—The steamer J. P. Donaldson lost two of her consorts at 2 o'clock this morning six miles southeast of the Dummy light house. The missing boats can not be sighted today, and it is feared they have foundered in the gale. Each boat carried a crew of about six men.

SCHOONER ASHORE.

ST. JOSEPH, Mich., Nov. 10.—The schooner Lena M. Nielson, lumber laden, from Ludington for Benton Harbor, is on the beach south of here. She tried to make this harbor early today but the storm was too strong, and she drifted south. Two tugs tried to tow her into the harbor but were unsuccessful. The schooner is manned by Captain Jacobs and crew of nine. Four of the crew were taken off by the life saving crew, when they broke their oars. The life savers then beached their boat and are following the wreck down the shore. There is little hope for the vessel.

PROBABLY THE TERESA.

Vessel at Cat Island Disarmed Warship Flying American Flag.

NASSAU, N. Y., Nov. 10.—The steamer ashore off Cat island, supposed to be the abandoned cruiser Infanta Maria Teresa, is now described as being a disarmed warship flying the American flag, showing signs of having been on fire and having leaked slightly. She stranded in an exposed position Thursday night last.

CONTROL THE HOUSE

Little Doubt of a Republican Majority.

That Party May Have Thirty to the Good.

Several Doubtful Districts to Hear From.

Republican Chairman Babcock Discusses the Victory and Its Advantages to the Administration.

CHICAGO, Nov. 10.—Dispatches to the Associated Press up to 11:15 a. m. today from 349 out of 357 congressional districts show that the republicans have elected 183 and the democrats and fusionists 164. There are still ten doubtful districts.

CHAIRMAN BABCOCK CLAIMS.

WASHINGTON, Nov. 10.—Chairman Babcock, of the republican congressional committee believes this morning that the republican majority in the next house will reach twenty.

He figured on only thirteen last night, but is now convinced that the manifest drift in the west, when the returns are all in, will show that enough districts, now doubtful, have been carried to swell the majority to twenty.

Mr. Babcock says that the gains in the west are due to the desire of the people to endorse the administration and to express their satisfaction over the return of prosperity. The republicans carried five districts west of the Missouri which they hardly hoped for, but were offset by the loss of four districts in New York and one in Massachusetts, so that Mr. Babcock's original calculation as to the result proved approximately correct.

Mr. Babcock says that the public hardly realizes the full extent of the republican victory on Tuesday. Even more important, he says, than the fact that the next house will be republican is the sweeping change in the senate where the fruits of Tuesday's election will give the republicans eighteen majority.

"That majority cannot possibly be overcome for eight years," said Mr. Babcock, "and for at least that period the business interests of the country are safe. Republican policies must prevail for that length of time. Even if the next house and the next president should be for free silver a republican senate would block their path.

"Besides, the majority in the senate will give us a clean working majority there for the enactment of our policies without the embarrassment coming from narrow and unstable majorities. There need be no deals with kickers.

"We will have a republican majority in sufficient number to work freely and what we do can be done with the knowledge that our legislation will have ample time to vindicate itself before a hostile senate can be elected to upset it."

At democratic congressional headquarters they had no new figures this morning. They did not concede the house, claiming that the returns from many districts were yet too meagre definitely to determine the result.

Fraud and corruption was charged against the republican management by the democratic managers.

REPUBLICANS LOSE NEBRASKA.

OMAHA, Nov. 10.—Noon.—Chairman Schender, of the republican state committee, concedes election of Poynter, fusion candidate for governor, by 1,000. Balance of ticket resulted in about same portion. Republicans will have a majority of four on joint ballot.

CRITICAL AT PANA.

Negro Miners Shoot at White Citizens.

The Situation Is Serious and There May be an Uprising Against the Colored Men.

PANA, Ill., Nov. 10.—William Lynch, who was employed by the Pana Coal company up to the time of the strike, has been shot at by negroes and run into the house. Then they shot through the house of a widow, Mrs. McIntyre, who was taking care of a sick daughter. The negroes in the "Flat Hall" district came running out and began to shoot in all directions. They kept shooting until the militia arrived on the scene. When the shooting began many women and children ran to Captain Butler, of Company B, for protection. As far as known, no person was struck by the bullets. Things are in such a state that it is dangerous for any one to go out in the mining district at night. The citizens say if something is not done before long there will be an outbreak and every negro and operator will be killed. It was impossible to arrest any of the negroes.

TO PRISON FOR LIFE.

Assassin of Austria's Empress is Tried and Sentenced.

GENEVA, Switzerland, Nov. 10.—The Italian anarchist, Luigi Luccheni, who stabbed and killed Empress Elizabeth, of Austria, on September 10th, last, in this city, was placed on trial here today.

The court was crowded and the prisoner was strongly guarded, but there was no excitement. Lucheni was sentenced to rigorous imprisonment for life.

FIT ALL FOR WAR.

French Fighting Ships to be Made Ready.

Lord Salisbury Says America is a Menace to the Peace of Europe.

PARIS, Nov. 10.—The Matin says that at a council of the admirals held yesterday, it was decided to fit out all the French war vessels available and thirty reserve ships have been ordered into commission.

The newspapers of this city, notably the Gaulois and the Figaro, express satisfaction at the marquis of Salisbury's speech, delivered at the Guild hall banquet last night, which they consider as tending toward a peaceful solution of misunderstanding as replacing the Fashoda question on its proper ground.

AMERICA A MENACE TO PEACE.

LONDON, Nov. 10.—Lord Salisbury surprised his auditors tonight by saying that a menace to peace existed in the expansion plans of the American government.

The statement was made at the lord mayor's banquet, at which 850 distinguished guests were gathered, but the premier aroused their enthusiasm a few minutes later by declaring that no matter what might be the outcome the American program, if carried to a completion, was likely to aid British interests.

He also said the feverish conditions were opposed to the czar's disarmament plan, and that England could not forego all necessary precautions to maintain its prestige.

In regard to Egypt Lord Salisbury gave his hearers to understand that Great Britain's grip on the Nile valley had been tightened; that a protectorate in the future may be possible, but just at present the government is not ready to take that step.

There was the usual expectancy to hear what the premier had to say, and when he arose a storm of cheers swept through the banquet hall.

SMOOTH WORDS FOR FRANCE.

Lord Salisbury said:

"We have had quite recently to consider whether the question of a European war was not very near. But with great interest and consideration the result has turned out happily through the great judgment and common sense displayed by France under circumstances of unusual difficulty, which, I think, have relieved Europe of a very dangerous and threatening storm.

"While matters were in suspense the government was necessarily forced to take precautions that it should not be taken unawares. These precautions were most prompt and effective, but the immediate necessity for them has passed off.

"There has been some surprise on both sides of the channel at the fact that these preparations have not suddenly ceased. But it is impossible to stop them at a moment's notice."

THE AMERICAN REPUBLIC.

Referring to the war preparations and asking his hearers to look at the state of the world, Lord Salisbury observed:

"The czar has invited a congress to provide for the disarmament of the world; but, while we offer our heartiest tribute to his motives and are willing to assist and sympathize with them in every way until the happy day when his aspirations are crowned with success, we must still provide precautions needful to counteract the dangers surrounding us.

"In some respects this era, this great epoch in the history of man, is marked by unhappy omens. It is the first year in which the mighty force of the American republic has been introduced among nations whose dominions are expanding and whose instruments to a certain extent are war.

"I am not implying the slightest blame. Far from it. I am not refusing sympathy to the American republic in the difficulties through which it has passed, but no one can deny that its appearance among factors Asiatic, at all events—and possibly in European diplomacy—is a grave and serious event which may not conduce to the interests of peace, though I think in any event it is likely to conduce to the interests of Great Britain." [Cheers.]

READY FOR CUBA.

Signal Corps Men Go to Join General Carpenter's Brigade.

HUNTSVILLE, Ala., Nov. 10.—Lieut. Victor Shepperd and fifteen men of company 17, signal corps, left today for Savannah to join General Carpenter's brigade for Cuba. Private Samuel Grady, of company K, eighth infantry, died today of typhoid fever.

Privates Frank Carroll, Lewis Johnson, troops H, Jesse Williams, troop K, Tenth cavalry, were convicted by a general court martial of conduct prejudicial to good order and were dishonorably discharged with imprisonment at hard labor for one year.

A WAR ON NEGROES.

White Citizens of Wilmington Adopt Extremities.

Colored Newspaper Looted by an Angry Mob.

The Plant Destroyed and Building Burned.

A Collision Between Whites and Negroes Results in Death of Six on Each Side.

WILMINGTON, N. C., Nov. 10.—The negroes not having complied with the demand of the business men by 7:30 this morning "the time fixed," a column of 500 armed whites assembled at the corner of Market and Fifth streets and at 8:30 o'clock marched to the office of the Daily Record, the negro newspaper, and destroyed all material found in the building. The building took fire but some assert that this was accidental.

Those in command of the white men say they had no intention of firing the building. As soon as it was discovered that the building was on fire the leaders sent for engines and the flames were confined to the Record building.

On the south only twenty feet distant, is St. Lukes, one of the largest negro churches in the city, and on the north, within twelve feet a frame building occupied by negroes.

The Record building is a wreck, being almost totally burned.

Excitement is intense as it is feared negroes will attempt to retaliate tonight. The streets are now full of armed whites, and at least 1,000 men will be on guard tonight. The column that moved to the Record office was composed of the best citizens of Wilmington and even ministers were either on march or guarding the city with Winchesters.

The negro laborers in the Champion compress, more than 500, became terrorized about 11 o'clock by wild rumors of trouble and rushed in the streets. They were finally somewhat quieted and dispersed in small squads to their homes. At 11:30 a. m. serious trouble occurred in the First ward. Three white men and three negroes have been killed.

Large companies of armed citizens have gone to the scene. The negroes are reported to have retreated but are being quietly reinforced by laborers from the compress. Fayettville has been telegraphed to for help.

NEGRO FIRED FIRST SHOT.

A representative of the Associated Press has seen a statement sworn before a notary public from a reputable citizen in which is positively stated that the first shot fired in the trouble in the First ward was fired by a negro.

As a result of the fight William Mapo, a well known and popular young man, is fatally wounded in the side. Bert Chadwick is wounded in the arm while three negroes whose names cannot be ascertained are killed and one other wounded.

Neighboring towns are said to be sending to the rescue large delegations of white citizens on special trains. One hundred armed men from Fayetteville will arrive at 2 p. m. All business is suspended.

STORY IN DETAIL.

WASHINGTON, Nov. 10.—A Star special from Wilmington, N. C., says:

Events have moved quickly in Wilmington this morning and the white people have made good their threats to take vengenance upon the negro newspaper which published the editorial derogatory to white women. At 7:30 o'clock the negroes not having responded to the demand for the removal of the press of the Record (the negro newspaper), ex-Representative Waddell, the chairman of the white committee of twenty-five, repaired to the light infantry armory, where he was to meet the citizens by appointment. Eight o'clock was the last hour of grace for the negroes to reply and that hour passed without an answer being received.

The citizens then waited half an hour for reinforcements. In the meantime armed men had begun to gather in the wide street in front of the armory.

They carried rifles, shotguns and ammunition and the assemblage included some of the most solid citizens of the town. At 8:30 o'clock the procession, headed by ex-Representative Waddell and the committee of twenty-five, moved in the direction of Seventh and Nunn streets, where the Record printing shop is located.

All along the line of march the procession was joined by armed citizens and when the negro quarter was reached the negroes could be seen a few blocks away, running into their houses.

When the crowd arrived in front of the Record office, a two story frame building, picket lines were thrown out across the streets and squads of men sent to squares in the neighborhood. Leader Waddell, with rifle on his shoulder, went to the door of the building and knocked, but there being no response, the door was soon burst open. The citizens surged into the place and commenced the work of destruction. The furniture was smashed and thrown into the street, the floors were gutted of moveables and the building was fired and destroyed. Some one turned in a fire alarm and when the engines responded the crowd discharged their weapons and a fusilade of gun and pistol shots, cheers and shouts filled the air.

The affair was soon over, however, and no one was hurt. The publishing house was destroyed, but the neighboring property saved. The colored editor, Manley, his brother and their associates have fled, and could not be found by the citizens. After destroying the printing house the marchers returned to the armory where they had left a rapid fire machine gun, mounted in a wagon ready to be dispatched to the scene if a battle should occur. The leaders of the crowd said subsequently that it was not the intention to burn the Record building; that it was the work of some rash persons or by accident and did not have concurrency of the committee of twenty-five.

Today's action of the whites was the sequence of yesterday's meeting at the county court house and of the committee of twenty-five in the afternoon as a result of which negroes were given until this morning to return an answer to the demand for the removal of the press and the cessation of the publication of the Record.

Last night was an anxious one for the citizens in the residence section. About 8 o'clock a street car came into the business section and reported that the negroes had fired into it and that the passengers had returned the fire. A car loaded with armed men was soon speeding toward the scene of the trouble, but the offenders escaped.

The entire eastern end of the town was aroused and armed men were on the street cars, on every corner and patrolling the dark streets.

In the negro district thirty or forty young negroes were assembled but they were not armed and not violent, and the older men said they did not contemplate trouble and sincerely hoped for peace. All night long the whites kept guard about the business and resident sections, but no incident occurred to disturb the night.

At 10:30 a. m. the scene shifted to another section of the city. Scarcely had the marchers disbanded at the armory before word was passed along that the 400 or 500 negro laborers of the great cotton compress had knocked off work and were assembling. The armed men hurried to the river front and took positions at the head of the streets leading to the docks. The negroes gathered in groups of fifteen or twenty, huddled together, and apparently very much excited. They were soon in a state of panic. Their wives had hurried to them with reports that the whites were burning the negro quarters and were shooting the people and begged their husbands to come home, so the whole force quit work. The white leaders endeavored to calm the excited men, told them no harm was intended and advised that they return to work. There was no violent talk nor threats by the negroes. In all the disturbances the local authorities made no show of asserting themselves and not a policeman was around.

The preservation of order is practically vested in a committee of twenty-five, who are now trying to restore order, quiet the situation and hold in check the reckless element among the whites. The rapid fire machine gun on a wagon, manned by a crew armed with Winchesters, was brought down in front of the postoffice, but on the advice of the leaders was halted there.

Soon after 11 o'clock word was brought that reinforcements were needed in the negro section of Brooklyn. The men were sent. Twenty minutes later news came that there had been a collision between the whites and blacks, and that blood had been shed. As a result of the trouble at Brooklyn it is believed that the number of negroes who have been killed will number four. A white man named Mayo who was shot in the stomach has since died. Another white man was hurt. The situation is quiet at the scene of trouble now. The negroes have gone into their houses.

Squads of men are now halting all negroes on the street and taking their pistols from them wherever found.

EIGHT NEGROES KILLED.

WASHINGTON, Nov. 10.—A later dispatch to the Star says: Between 1 and 2 o'clock there were several skirmishes. The total casualties at 2 p. m. were: Eight negroes killed, two wounded and three white men wounded—Mayo, Chadwick and Piner. Mayo is not dead as before reported but is shot through the lungs. About 1:30 two white men passing a house were fired upon. A detachment immediately surrounded the house and took away five negroes. It was at first proposed to kill them on the spot, but it was finally decided to put them in jail. Another negro in the house broke and ran, but after proceeding half a square was shot dead. The negro who shot Mayo was recognized, it was claimed, and a detachment found him at his house. He was riddled with bullets and left dead. The reinforcements from Goldsboro have been turned back and the committee of twenty-five is considering means of preserving order.

The plan most in favor is to appoint a sub-committee of six or ten men to have supreme charge of the city, superseding the mayor and other authorities.

Special trains are being run into Wilmington from other towns with reinforcements of arms. Goldsboro has started 500 men. Laurinburg has started 150 and other places have offered help if needed.

The light infantry, a regular state militia organization, will probably take command of the situation here, and its officers directly patrolling and guarding the city. It is understood the governor has given his sanction to this plan, and if carried out it will have a salutatory effect.

The local detachment of United States naval reserves, in fatigue uniform and dragging their new one-pounder rapid fire gun, are now at the scene of trouble, together with the light infantry and several hundred armed citizens. But there is nothing to shoot at. The negroes have disappeared.

THE COURTS.

The Justices Are Again Busily at Work.

Sheriff Melching Has Gone to Oklahoma After H. A. Bixby--Interesting News in Court.

Now that election is over business in the justice courts is again on the boom. For several weeks preceding election matters were quiet, but conditions are changed. When THE SENTINEL reporter made his rounds this morning 'Squire France had disposed of four cases, Justice Huser of one and another was on trial before Justice Bullerman.

COUNTING THE VOTE.

Inspectors Met in the Circuit Court Room.

The Work is Progressing Quite Rapidly.

Hon. C. F. Muhler Is Acting as Chairman.

The Majorities Will Not Vary Much From Unofficial Return—Township Vote.

The Allen county election inspectors met this morning in the circuit court room and organized into a canvassing board to canvass the vote of the county cast at Tuesday's election for state and county officers. Hon. C. F. Muhler, of this city, was elected chairman, and Louis Jocquel and Ed J. Ehrman, reading clerks. County Clerk Metzgar is recording the vote for county officers and Clerk-elect Belot is recording the vote for state officers.

Many of the inspectors have served heretofore under the Australian law and the work is progressing more rapidly than heretofore, thirty-three precincts, more than one-third the county, having been canvassed at noon. Comparisons made with the unofficial vote do not show any material differences and the majorities for the democratic candidates will be about as estimated in THE SENTINEL yesterday.

The inspectors report that in most of the precincts some of the ballots were thrown out because they were marked wrong, while several hundred voters marked in the square opposite Ralston and Hunt and Robinson and Stemen, the first names on each ticket, supposing this meant a vote for the straight ticket. But the vote was counted only for the cahdidate in front of whose name the mark was made.

ELECTION NOTES.

The vote given Mr. Emrick for prosecuting attorney was quite a compliment to him. His majority will be third highest of the county officers, and considering that the total votes for Messrs. Emrick and Abel was 200 or 300 more than that cast for the leaders, Meyer and Melching, shows that the voters had confidence in the democratic candidate.

Congressman Robinson made a wonderful race in Allen, his home county. He carried every township and the only ward in the city which he lost was the Fifth, which gave Mr. Stemen eight majority. The workingmen especially showed their friendship for Mr. Robinson, who has at all times been their friend in and out of congress.

Bob Shirley ran thirty-five votes behind the state ticket in his own township, Maumee.

Justice Huser's commission expired yesterday, and as he cannot get his new one for a week, he is in a quandery to know whether or not he can legally act as justice.

Harry France's term does not expire until next October. Should he serve out the term to which he was elected Tuesday he will have been justice of the peace for twenty-one years and seven months, consecutively.

Sheriff Melching will commence his new term November 17. Auditor-Elect Meyer will also take possession of the auditor's office on the 17th.

Mr. Emrick's term commences next October and Mr. Gillette will not be recorder until June, 1900.

THE TOWNSHIP VOTE.

The inspectors of Wayne township met yesterday afternoon and canvassed the vote for township officers. All the democratic candidates were elected by majorities ranging from 484 to 800. Louis P. Huser received the highest democratic vote and Mr. Fletter received the most republican votes. Christopher Kelley received the highest vote for constable.

The vote for justices of the peace was as follows:

Tancey, democrat, 4,684; Strass, republican, 4,000; France, democrat, 4,490; Fletter, republican, 4,014; Huser, democrat, 4,687; Tyler, republican, 3,808; Bullerman, democrat, 4,628; Covell, republican, 3,814.

The vote for constables was as follows:

Kennelly, democrat, 4,650; Engle, republican, 3,848; Ford, democrat, 4,635; Sutton, republican, 3,821; Kelly, democrat, 4,660; Latty, republican, 3,795; Roebke, democrat, 4,609; Reed, republican, 3,820.

ROBINSON'S MAJORITY.

The most reliable figures and indications now point to a majority of over 1,200 for Congressman Robinson in the Twelfth district. Allen county will give him at least 2,500 majority. His majorities will run in the district about as follows, according to telegraphic advices received late this afternoon by THE SENTINEL from all counties in the district:

Allen	2,523
DeKalb	301
Whitley	309
Total	3,133

The majorities received by Dr. C. B. Stemen in the republican counties of the district are as follows:

Steuben	618
LaGrange	732
Noble	223
Total	1,573
Robinson's majority	1,200

THE cold wave predicted for tonight is a little late in arriving. It should have been here Tuesday.

THE die is cast and Col. Ted Roosevelt has two years in which to demonstrate that he is "a biger man" than William McKinley.

THE voters do not, evidently, fear the domination of Mr. Bailey, of Texas, in the Twelfth district. The handsome majority given Hon. James M. Robinson must be taken by republicans and will be taken by democrats as an emphatic approval of the congressional career of Mr. Robinson as well as an endorsement of the principles for which he stands.

IF SOMEBODY will line that good old hymn, "When carking cares corrode the heart," democrats generall will join in with spirit and some assistance will doubtless be given by Allen county republicans.

RETURNS from Pennsylvania prove that one Swallow cannot make election day a disaster for Matthew Stanley Quay any more than one swallow can make a summer. In Pennsylvania Senator Quay is not merely the boss; he is the proprietor.

SECRETARY ALGER has already discovered in the election returns a pronounced vindication of his management of the war. The president should call off his board of inquiry. It is digging up some facts that will not dovetail well into the war secretary's vindication.

THE general traffic manager of the Canadian Pacific railroad, estimates that $30,000,000 has already been expended in seeking for Klondike gold. Certainly the amount of gold which has thus far been brought out amounts to no such sum as this. The figures confirm the popular impression that the gold fever was like other diseases, most unfortunate for the victims. Had this $30,000,000 been invested at home, backed by the same amount of laborious effort, the returns would certainly have been larger.

EITHER the wheat crop of 1898 has been greatly underestimated or else the amount of wheat remaining in the hands of the farmers is not nearly as large as has been generally calculated. Since August 1 the receipts of wheat at the various centers have aggregated upwards of 85,000,000 bushels, while last year, when the farmers made no effort to hold back their crops, the receipts during the same period were only 83,000,000 bushels. Undoubtedly this year's harvest was larger than last year's, but the increase is not so great as to account for large reserves now in the hands of the producers. It may safely be taken for granted that if the price of wheat goes much higher this year the increased profits will go to the speculator and not to the farmers.

THE republicans will have control of the next legislature and will therefore elect a republican to succeed United States Senator Turpie. The contest for the honor promises to be far more exciting if not more bitter than the struggle of two years ago, which resulted in the election of United States Senator Fairbanks. Judge Robert S. Taylor has been an avowed senatorial candidate for two years, and during the present campaign has unsparingly devoted his time, his energies and his means to the success of the republican party in the state. Other candidates who for greater or less periods have been pushing themselves to the front are J. Frank Hanly, of Lafayette, and Frank B. Posey, of Evansville. Albert J. Beveridge, of Indianapolis, has been tentatively a candidate during latter weeks of the campaign and has a following of some strength in Indianapolis. The re-election to congress of Hon. George W. Steele from the Eleventh district has brought Mr. Steele out formally with announcement of his senatorial aspirations. It has been suspected that he would be a candidate and he will be the most formidable candidate against the balance of the field. Congressman Steele is a wily politician and is believed to have the secret support of Senator Fairbanks. Since the successor to Senator Turpie is to be a republican, people from the northern part of the state will generally, regardless of political considerations, be warmly favorable to the candidacy of Judge Taylor. But if Steele is a candidate he will be in front in the running.

CREEKS FIGHTING.

Trouble Reported Between the Full Bloods and Treaty Leaders.

EUFAULA, I. T., Nov. 10.—It is known here that there has been fighting at Okmulgee, the capital of the Creek nation, where the council met Tuesday.

For forty-eight hours rumors of trouble have been drifting in from Okmulgee, which is forty miles off the railway and without telegraph or telephone service. It is known, however, that the full bloods have made an attack on the treaty leaders at Okmulgee and that at least one man has been killed and seven or eight wounded. All the Indian police at Agent Wisdom's disposal have been ordered to Okmulgee and soldiers will follow. The white people feel able to take care of themselves. The only fear is for the half-breeds who voted for the treaty.

THE TREATY CARRIES.

CHOCTAW, I. T., Nov. 10.—The Creek returns are all in and show that the treaty has carried. Twelve hundred full-bloods stayed away from the polls.

The council is in session at Okmulgee. The full-bloods' chief threatens to kill the people who voted for the treaty. Indian police were ordered by the agent to Okmulgee. Chief Isparhecher threatens to burn towns in the Creek Nation along the Missouri, Kansas and Texas railway. The Indians are very restless.

ROUGH RIDERS' EXHIBITION.

An Unique Feature of the Cleveland Horse Show.

CLEVELAND, O., Nov. 10.—The Cleveland horse show, which opened at the Central armory, on Tuesday evening, is meeting with marked success, notwithstanding a continuous downpour of rain for the past three days.

The attendance, especially of society, is phenomonally large

Nearly all of the neighboring cities are well represented. The entry list is a long one and includes many fine horses and vehicles.

The Rough Riders with their trained western bronchos give the finest exhibitions of horsemanship ever seen in this city and receive much enthusiastic applause. The show will continue throughout the week.

THE BELVIDERE LIBELED.

Sailors of the Whaling Bark Say They Were Held Prisoners.

SAN FRANCISCO, Nov. 10.—Fifteen sailors of the steam whaling bark Belvidere filed a libel against the bark in the United States district court. They allege that they shipped for a twelve months' whaling cruise and that they were frozen in all winter in the Arctic, near Point Barrows, and that when the vessel got away and reached Port Clarence at the expiration of their term of service they asked to be discharged. They aver that the master, Captain Mallard, not only refused to comply with their requests, but kept them virtually prisoners on board the bark for eight months longer. Charges of cruelty are also made and damages are demanded.

Rev. L. L. Henson will next Tuesday evening install Rev. W. D. Chipp as pastor of the First Baptist church at Bluffton. The new pastor accepted the call a month ago, coming from Rochester, N. Y.

MORRIS-WHITE.

Quiet Wedding Takes Place at the White Homestead.

Miss Clara Pieper Becomes the Bride of Carl Bode—A Greek Weds Greek—Other Weddings.

At the White homestead, yesterday afternoon, occurred the marriage of Miss Grace White, daughter of Mrs. James B. White, to William S. Morris, of Richmond, Va. The ceremony was performed by the Rev. D. W. Moffat, pastor of the First Presbyterian church, the ring service being used. Only relatives and a few intimate friends were present. The bride wore an elegant gown of white crepe de chine, with silver embroideries, the bodice trimmed with rose point lace and the skirt with lillies of the valley. A bouquet of lillies of the valley completed the costume. Little Virginia White, a niece of the bride, was ring bearer and she looked sweet in a simple but beautiful dress of organdie. After congratulations were tendered the couple a wedding supper was served by Lacklin, shortly after which the bridal couple left on the Pennsylvania railroad for Chicago, from whence they go to Richmond, Va., their future home. The bride's traveling gown was a blue tailor made suit. The guests from out of the city were as follows: Mr. and Mrs. Will Kelley, of Chicago; Mrs. Taylor Kelley, of St. Louis; Mr. and Mrs. G. L. Briggs, of Auburn, N. Y.; Dr. B. A. Graham, of Indianapolis; Mrs. F. L. Swasey and Miss Grace Swasey, of Richmond, Va.; Miss Bessie Thompson, of Sidney, Ohio.

BODE-PIEPER.

Yesterday, at Emamuel Lutheran church, occurred the marriage of Carl Bode to Miss Clara Pieper, Rev. Wambsganns officiating. The bride is the daughter of Mr. and Mrs. Ernst Pieper, of this city, and the groom is a resident of Cleveland, where the couple will make their future home.

SEA WALL GIVING WAY.

Heavy Weather on Lake Michigan Doing Damage to Chicago's Water Front.

CHICAGO, Nov. 10.—Lake Michigan, being swept by a northeast gale, is tearing great holes in the sea wall and the paved beach along the lake front. The Lincoln park commissioners had just gotten well under way repairing the serious damage done by the storm of October 25, but the heavy breakers have now put the whole shore line in a worse shape than ever.

The action of the waves has undermined the outer driveway in Lincoln park, after washing over and displacing the heavy granite blocks with which the beach is paved. Along the north shore drive from Bryon street south the water ran across the roadway and made it impassable.

The surf played havoc with the sea wall on the lake shore drive and eat its way into the dirt embankment. Several vessels are overdue in Chicago and some apprehension is felt for their safety.

DIED IN HIS CANOE.

While on a Hunting and Fishing Excursion Edward Hathaway Fell Dead.

Information has been received by M. L. Jones of the death of Edward Hathaway at Berlin, Wis., which occurred on the 20th of October. The deceased visited Mr. Jones in this city several times, making numerous acquaintances while here. He was an enthusiastic hunter and fisherman, and it was while enjoying these pursuits that he fell dead with heart disease while floating on the Fox river in his canoe. His dead body was discovered the following day below a falls not far from Berlin, and a post-mortem revealed that his death was not due to an accident, but to the cause stated. Mr. Hathaway had planned a trip to Fort Wayne for the week following his death, intending then to go to Rome City and be the guest of Mr. Jones at the latter's cottage.

By this change the Lakesiders get a twelve-minute service, where heretofore they had cars every fifteen minutes.

Many a woman throws away the flower of her youth—her beauty, her amiability and her capacity for wifehood and motherhood—without realizing it. There is no sadder sight than that of a young woman who has for years been bearing up bravely and silently under physical tortures that would drive a man to the mad-house.

Thousands of women suffer in this way and ask neither aid nor sympathy. They realize that they are the victims of weakness and disease of the distinctly womanly organism. They do not consult a physician because of the well-founded fear that he will insist upon disgusting "examinations" and "local treatment." Dr. Pierce's Favorite Prescription does away with all necessity for these ordeals. It cures in the privacy of the home. It restores health and strength and vigor to the delicate organs concerned in wifehood and motherhood. It tones, invigorates and builds up the nerves and transforms nervous, overwrought, sickly invalids into healthy, happy wives and mothers. Dr. Pierce is an eminent and skillful specialist who has been for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. He will answer, without charge, all letters from ailing women. The "Favorite Prescription" is for sale by all good dealers.

"I suffered from womb trouble for about twelve years," writes Mrs. Harry Pomeroy, of Box 288, Monona, Clayton Co., Iowa. "I doctored with six different physicians, but found only temporary relief. I then used six bottles of Dr. Pierce's Favorite Prescription and three of 'Pleasant Pellets.' I am a new woman. I hope and pray that this will induce other poor sufferers to u Dr. Pierce's medicines and be cured"

MADE A LITTLE MONEY.

Ladies of the Trinity Episcopal Church Settle Up Affairs of "Ben Hur."

Mrs. A. D. Guild this morning announced that the ladies of Trinity church, with the kind assistance of R. H. Carnahan, had completed the auditing of accounts and receipts of the spectacular production of "Ben Hur," and that after everything is paid there will be a balance of about $75. While it is small remuneration for the great amount of work performed by the ladies they are glad that it is no worse. The promoters of the attraction feel very grateful towards everybody who took part in the entertainment.

The Wednesday Afternoon Pedro club held a meeting at the home of Miss Velma Ohneck, north of the city, yesterday afternoon. COMFORTING WORDS TO WOMEN.

The Surgical Chair and its Tortures May be Avoided by Women Who Heed Mrs. Pinkham's Advice.

Woman's modesty is natural; it is charming.

To many women a full statement of their troubles to a male physician is almost impossible. The whole truth may be told to Mrs. Pinkham because she is a woman, and her advice is freely offered to all women sufferers.

Mrs. O. E. Ladd, of 19th and N Sts., Galveston, Texas, whose letter is printed below, was completely discouraged when she first wrote to Mrs. Pinkham. Here is what she says:

"Dear Mrs. Pinkham:—I wrote to you some time ago, telling you of my ills, but now I write to thank you for the good your remedies have done me. I have used two bottles of Lydia E. Pinkham's Vegetable Compound, three packages of Sanative Wash, and one box of Liver Pills, and to-day I call myself a well woman. I suffered with backache, constant headache, whites, sick stomach, no appetite, could not sleep, and was very nervous. At time of menstruation was in terrible pain. Your medicine is worth its weight in gold. I never can say enough in praise of it. I have recommended it to many friends. If only all suffering women would try it, there would be more happy homes and healthy women. I thank you for the change your medicine has made in me.

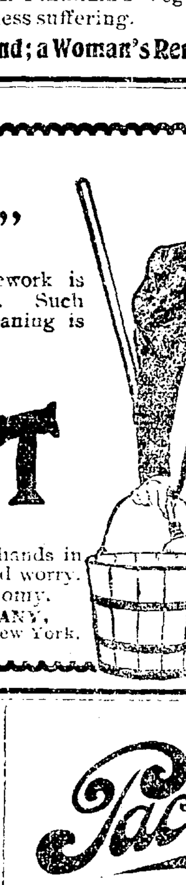

Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice, have saved thousands of women from hospital operations.

The lives of women are hard; whether at home with a ceaseless round of domestic duties or working at some regular employment, their daily tasks make constant war on health. If all women understood themselves fully and knew how exactly and soothingly Lydia E. Pinkham's Vegetable Compound acts on the female organs, there would be less suffering.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills

"Lend a Hand!"

is the cry of women whose housework is beyond their physical powers. Such women need to know that all cleaning is made easy by

OFFICE CHANGES.

Several Pennsylvania Clerks Deservedly Promoted.

William Mullahy, Michael Breen, George Gerard and Fred Thebold Share in the Honors.

By the creation of a new position, made necessary by the increased traffic on the road, a number of changes have taken place in the clerical forces of Trainmaster C. E. Walton and Yardmaster F. E. Tibbles, of the Pennsylvania. William F. Mullahy, clerk at the east yard office, was transferred to Mr. Walton's office, and Michael Breen was promoted from night clerk at the yards to the position vacated by Mr. Mullahy. George Gerard, caller of train crews, was given the night clerkship, and Fred Thebold was employed as caller, vice Mr. Gerard. All these changes are in line of promotion and they are all merited. G. Beeching, a switchman, resigned his position in the east yards, to engage at some other work.

THE E. F. C. T. AUXILIARY.

The auxiliary composed of the wives of the members of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen, Order of Railway Conductors and Brotherhood of Railway Trainmen, will give a reception and dance at Miss Mulqueen's dancing hall Friday evening, Nov. 18th. The proceeds will be used for the railroad hospital rooms. The object is a very worthy one and the entertainment deserves a liberal patronage, especially by the railroad people. The use of these rooms are given to any man hurt or sick in train service, whether he is a member of any of the orders or not, and any member of the brotherhoods is eligible to the use of the rooms, whether he is in active service or not.

TWO SHOPMEN HURT.

Ed Tierney had the misfortune to lose a portion of the little finger of his left hand yesterday. While working in the Pittsburg machine shop a pedestal cap fell on the digit and crushed it so badly that Dr. James Lomas, the attending surgeon, found it necessary to take off a portion of the wounded member. Another unfortunate was Machinist Frank B. Connors, of the same shop, who was the victim of a misdirected blow of a sledgehammer. He received an ugly gash over the left eye, which Dr. G. C. Stemen had to stitch two or three times. Mr. Connors was holding a stay-bolt punch when he received the blow.

WORK TRAINS IN TROUBLE.

Two work trains on the Pittsburg road had some cars off the tracks at Park Manor, Chicago, at an early hour this morning. The tracks were blocked for several hours. Passenger trains 5, 15 and 20 were delayed, being compelled to detour via the Panhandle, striking that line at Bernice. Freight trains were also delayed from one to three hours.

FUNERAL OF CONDUCTOR KELLER.

The remains of the late Conductor Henry W. Keller, whose sad fate was chronicled yesterday, were brought to Plymouth last night and prepared for burial. Today they will be taken to Hammond, where the funeral will take place tomorrow morning. A number of the dead conductor's Fort Wayne friends will attend the obsequies.

General and Local Gossip.

Nickel Plate Brakeman Deatrick is sick.

Switchman C. Wybourn, of the east yards, is sick and off duty.

Pittsburg Machinist Patrick Bresnahan is sick and off duty.

Nickel Plate Engineer Joseph Bracht is taking a few days' rest.

W. O. Miller, a brakeman, has resigned his position on the Nickel Plate.

W. S. Danes, of Peru, was in the city over night, on business for the Wabash.

U. H. Kohler, passenger fireman on the Pittsburg, has taken a lay off for the purpose of hunting quail.

Theodore Thieme, manager of the Wayne Knitting mills, went to Toledo this morning in the interest of the firm.

W. E. Buck, the tank builder who sustained some painful injuries a few days ago, has resumed his duties in the Pittsburg shops.

L. F. South, a car builder in the east shops, has been taking a few days' lay off to attend to some private business.

M. Gindelsparger, a boilermaker, who worked at the Bass works some time ago, this morning resumed his old place in that establishment.

George Cassidy, the Pennsylvania yard conductor, who sprained one of his ankles several days ago, was able to resume work yesterday.

Donald McDonald, son of E. H. McDonald, has become an apprentice in the Pittsburg machine shop, commencing work there this morning.

Engineer Ed Wolf and Fireman Stoner, of the Nickel Plate, who are enthusiastic Nimrods, have taken a few days' lay off in which to hunt quails and ducks.

F. Shuler, a brakeman on the Nickel Plate, who has been in the through freight service several weeks, has resumed his old place in Conductor Overholser's crew.

A. Herr, a car inspector, has gone to Lima, Ohio, to take the place in the Pennsylvania yards a few days of J. J. Steine, who is off duty on account of the death of a relative.

George Sunley, while at work in the east yards Tuesday night, ran against a switch stand and severely injured one of his knees. He is a switchman.

Another strike is said to be due on the Chicago and Southeastern, the men again becoming uneasy about back pay. This will be strike fourteen, it is said, whenever it matures.

Thomas Rodd, chief engineer of the Pennsylvania lines, and a party of friends are hunting in the vicinity of Middlepoint, Ohio. They came here last night and this morning left for the hunting grounds in the Pennsylvania hunting car.

Joseph Nichter, machinist in the Wabash shops, is off duty on account of sickness.

Ed McDonald and P. T. Walsh, engineers on the Pittsburg road, have resumed their respective positions on the road.

A. Kantz, engine repairer in the Pittsburg round house, fell from a locomotive tank yesterday and was injured severely.

Fred Rehling, boilermaker, had an ankle sprained at the Wabash shops yesterday and will be on the absentee list a few days.

Harry Noll this morning resumed the place in the Wabash machine shop that he vacated last April when he enlisted in the Twenty-eigth battery.

Grand Rapids and Indiana trains from the north this morning were covered with snow. At Kalamazoo and north of that point the fall was considerable, being six inches in places.

Nickel Plate Brakeman C. F. Wishart, who had been off duty a few days on account of the election and some private business which required attention, reported for work yesterday.

Judge Dichi, of Lima, Ohio, has overruled the motion to have the sale of the Ohio Southern to the first-mortgage bondholders set aside, and the sale will now be confirmed, it is expected.

Jacob Hilgeman left this morning for New Orleans, to install some machinery in the immense city lighting plant there. The work will keep him in the southern metropolis a week or two.

K. Meier, who had a nervous affection not unlike paralysis, has recovered, and yesterday resumed his place in the east car shops. It was feared at one time that the malady would permanently disable him.

Wabash Machinist Michael Hausbach is undergoing the painful operation of having some iron dust removed from his eyes. The metal got in the optics yesterday and is being removed with difficulty.

Representatives of southern lines are becoming numerous at the northern railroad centers, and they say that tourist travel south already shows much activity. A belief exists that travel in this direction will this winter be exceptionally heavy.

The rivalry between Anderson and Muncie as to the volume of business done is very fortunate for the Big Four Bee-line division. About six months of each year Anderson will ship the most freight, and the other half of the year Muncie will lead.

W. Koch, a Pennsylvania car builder, had one of his feet severely bruised yesterday by a large plane falling upon it. Another unfortunate at the car shops is W. Veith, who had the index finger of his left hand crushed between two air brake cylinders yesterday.

John Potter, the veteran cabinetmaker in the Pittsburg shops, who a few months ago had little hope of ever being able to return to his shop duties, has almost completely recovered his health and yesterday resumed work. He had been off duty since last March.

Private car lines are being boycotted with a view of compelling them to retire from the business. Recently a line which operated over the Union Pacific withdrew from the road and sold its cars, 500 in number, to the Kansas City, Pittsburg and Gulf company.

The Baltimore and Ohio company is getting considerable advertisement out of its new train, the Royal Limited, which is being exhibited at important points on the line. Tuesday the train was at Pittsburg, standing upon a siding for three or four-hours, and it was admired by 3,000 persons. Some of the visitors were treated to refreshments in the magnificent dining car. The train will be placed into service November 20.

P. A. Bonebrake, superintendent of the Indianapolis division of the Pennsylvania lines, has asked the Pittsburg officials to send a couple of class L passenger engines to haul the heavy fast trains this winter between Columbus and Indianapolis. Traffic is so heavy on this division that when one of the fast trains drops a little behind its schedule and is delayed by meeting freight trains the lost time cannot be made up with the class P engine.

The Denver and Gulf road, which is to be sold under foreclosure November 18, will be re-christened the Colorado and Southern railroad, when the reorganization is affected. This title, it is announced, has been accepted by Receiver Frank Trumbull, who is to be president of the new company, and by leading stockholders. The road will extend from Wyoming, through Colorado to Fort Worth, Tex., with possibilities of further extension toward tidewater in the future.

Engineer George Moore, of the Nickel Plate, was called to Bellaire, Ohio, yesterday, to see his brother, who was not expected to live but a few hours. The unfortunate man is an engineer on the Baltimore and Ohio road, and he was at the throttle of the engine which jumped the tracks Tuesday, near Bellaire, with such disastrous results. Three years ago this same man was nearly killed in a wreck which occurred on the Baltimore and Ohio road in pretty much the same manner as did the one which threatens now to take his life.

Jacob Backes, boilermaker, and Martin Hobrock, machinist, yesterday commenced testing the water station boilers on the western division of the Pittsburg road. The work will consume about two weeks.

A rear end collision four miles east of Wabash, yesterday, resulted in injury to Engineer Brumbaugh and Fireman King. One of the big Barnes engines ran into the rear of a train, smashing the caboose into splinters, badly crippling two cars and stripping the engine of pilot, smoke stack and exposed attachments.

The Pennsylvania company is getting its snowplows ready for business, and indications point to a necessity soon for such an implement. The company uses a gondola car for this purpose, and when there is no further use for it in that line, it is stripped of the plow attachments and returned to the freight service.

Passenger engine 179 has resumed its old run on the Nickel Plate, after being thoroughly overhauled in the Stony Island shops. Engineers Haley and Maloney will alternate at the throttle. Engine 165, also a passenger locomotive, is now in the shops for general repairs and her run, Nos. 3 and 6, on the third district, has been taken by engine 163.

Ora Ramey, ticket clerk for E. S. Philley, has resigned to accept a position in the freight office as operator and freight clerk. Mr. Ramey is an experienced clerk and will make a valuable man in his new position. C. Bradford, of Lansing, Mich., an employe of the Lake Shore and Michigan Southern at that point, will take the position vacated by Mr. Ramey.

The Pennsylvania and the Nickel Plate roads each had excursions to Chicago today, the former sending out a special at 12:15 and the latter two special trains at 3 o'clock this afternoon. The people who compose these excursion parties are chiefly citizens of the towns along the lines who go to Chicago to do some trading. No special attraction at Chicago was advertised.

PAID THE FINES.

Liquor League Settles for Certia and Belchin.

Mayor Assessed Fines and Costs Amounting to More Than Forty Dollars—Police Notes.

Peter Cortia and Frank Belchin, the saloonkeepers arrested for keeping their saloons open on election day, were not in police court this morning, but the trustees of the Local Liquor league were there and settled the fine of $10 and costs, which Mayor Scherer assessed in each case. Officer Knock preferred the charge against Belchin and Officer Dickson against Mr. Certia. Mayor Scherer ordered all officers to report saloons that were open on election day, and the Journal this morning charges that several were open. The mayor will investigate and call for evidence.

POLICE NEWS.

There were three train climbers before the mayor. One of them was so covered with dirt that Mayor Scherer sent him to jail that he might be renovated. The other two were ordered out of the city.

Superintendent Gorsline is desirous of locating William C. McClure, an old soldier who served during the war in the Ninety-sixth Ohio. McClure's true name is George W. Mills. He lived in Fort Wayne four or five years ago, but moved to Michigan. He came back last month. If Mr. McClure, or Mills, will call on Superintendent Gorsline he will give him some information which will please him.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was—Free trial bottles of this Great Discovery at Dreier & Bro.'s drug store. Large bottles 50 cents and $1.00.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters;' and, to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bot. at Dreier & Bros. drug store.

YOU CANNOT CURE PILES.

By Internal Remedies.

The only way to cure piles in every form is to use a remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful healing effects are felt on the first application because the medical properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made, and almost before the patient is aware of it, every trace of piles has left him.

This is one reason why the Pyramid Pile Cure has been so successful. It is applied directly where it is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so-called systems.

Its advantages over all other pile cures are these: It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid Drug Co., of Marshall, Mich., and sold by all druggists at one dollar per package.

Don't you remember what a task the bath was when you were a child. Remember that patient mother? Perhaps she had several children to put through the process. Every one whined about it. What a difference now! The bath is easy. The child can take it all alone. No older head needed. It's a real pleasure to bathe in one of our tubs.

DISFIGURED FOR LIFE

Our little girl's humor commenced with a tiny sore on one nostril, but it kept on spreading till we thought she would never get it cured. We tried everything we could get, but it kept getting larger all the time, till both nostrils, the upper lip, a part of the lower lip, and up one side to the eye, were a solid sore. We thought there was no cure, and that she would be disfigured for life. Finally we tried CUTICURA REMEDIES. We used CUTICURA RESOLVENT and nearly a box of CUTICURA (ointment), and in a short time she was entirely well, with no scar or trace of the humor. MRS. WM. CHICHESTER, Plainville, O.

Paris Newspapers Comment on American Demands.

Some Sharp Views Upon American Diplomatic Methods.

Think They Are Something Little Less Than Brutal.

Says Americans Presented Their Reply in English and Left Spaniards to Translate It.

PARIS, Nov. 10.—The newspapers of this city, after yesterday's meeting of the peace commission, seemed to have gathered from some source or other the impression that the Spanish commissioners have cause for complaint against the Americans because the latter presented their replies to the Spanish proposals in English and without Spanish translation of the document. There is no basis for complaint on the subject.

The president of the Spanish commission, Senor Montero Rios, and Judge Day, the president of the American commission, agreed that, owing to the length of the document, all concerned might be spared the reading of matter which is usually translated in writing into Spanish for the benefit of Senor Montero Rios and the two members of the Spanish commission who do not understand English.

Each side, up to the present, has made its own written translations, but the Americans alone have supplied an interpreter, instead of furnishing an interpreter for their side, as they might have been expected to do.

The American interpreter is Arthur Ferguson and the Spaniards have marvelled at the facility with which he did his work. They have never once checked him or corrected him in the slightest degree.

NEWSPAPER COMMENT.

In view of the facts in the case, some of the references of the Paris newspapers this morning are interesting.

Regarding yesterday's meeting the Figaro says:

"The American commissioners contented themselves with producing a long memorandum written in English. After having deposited this upon the table they left the task of translating it to the Spanish commissioners, apologizing courteously for its length and the difficulties of translation. They then retired. The situation then, at present, is as follows:

"The Americans persist in refusing to take over the Cuban debt and exact the cession of the Philippines. The Spaniards on their side, refuse to cede the archipelago."

The Petit Bleu says:

"All diplomatic forms were outraged by the Americans at yesterday's sitting. It is customary in such cases to read the memorandum presented to the other side. The Americans, however, contented themselves with throwing it, written in English, upon the table."

Continuing the Petit Bleu says:

"A member of the Spanish commission has remarked that his colleagues can never admit the claims of America in regard to the Philippines.

"The protocol says the treaty of peace shall determine the disposition and control of the Philippines, and the Americans now claim that 'disposition' means that the colony shall be surrendered to America. This Spain can never admit."

The Petit Bleu expresses its belief in an early rupture of the negotiations.

The Rappel says:

"A Spanish commissioner has declared that the Spaniards will yield only to force in the question of the Philippine Islands."

Continuing, the Rappel asserts that it anticipates the rupture of the negotiations at an early date, adding:

"The country which started out as the liberator of Cuba, now threatens war, although her demands as to Cuba have been acceded to, because she cannot annex territory which played no part in the bringing on of the war. We preferred the liberator of Cuba to the oppressor of Spain."

HEAVY SNOW STORMS.

Michigan in Mantle of White—Street Cars Stopped in Kalamazoo.

KALAMAZOO, Mich., Nov. 10.—Two blocks of telephone, telegraph and trolley wires and poles on Portage street were broken down today by the weight of the snow on the wires. Street car traffic is suspended and the city may be possibly in darkness tonight.

DETROIT, Mich., Nov. 10.—A heavy rain is falling over southern Michigan with light snow in some portions. Lansing, Grand Haven and Lapeer all report snows, the latter town having three inches of it. Inspector Conger, of the Detroit weather bureau, predicts that the storm will last until tonight or tomorrow morning, with the temperature growing slightly colder.

SOMETHING IS WRONG.

Trouble in the American Consulate in the City of Mexico.

CITY OF MEXICO, Nov. 10.—The condition of the affairs in the American consulate general here attracts much attention. Vice Consul Bennett, having been suspended and forbidden entrance to the consulate by Consul General Barlow, who has not made known the grounds for his action, Colonel Bennett's friends assert that he has been unjustly treated, and that due cause should be shown for his removal, which in reality must be approved by the state department at Washington. It is likely to demand a full investigation of all the affairs of the consulate. The American minister is reported to be examining into the matter.

GALES RAGING.

Storms on the Lake Dangerous to Shipping.

A Vessel's Crew Rescued by Life Savers at Chicago—Lower Lake Storm Most Violent.

CHICAGO, Nov. 10.—The tow line of the schooner Ironcliff, which was being towed into port today by the steamer Iron Duke, parted in the furious northwest gale and the schooner drifted rapidly southward. Her anchors finally held when the apparently doomed schooner was about 300 feet outside the inner breakwater, off Van Buren street.

For two hours three tugs tried in vain to pull her into safety. The crew in the meantime had clung to the schooner, although seas were rolling over her from stem to stern.

Finally signals of distress were hoisted and the life saving crew started at once for the wreck. The Ironcliff brought a cargo of salt for Joy, Morton & Co. She is owned by Parker and Millen, of Detroit.

The life saving crew, with the assistance of two tugs, succeeded in saving the crew of the Ironcliff after much hard work. Unless the wind and sea abates the schooner will be lost.

The life boat was nearly swamped several times, but after a long hard struggle the crew succeeded in getting her under the lee of the Ironcliff which by this time was nearly water-logged and evidently sinking. One by one the seven men composing the crew of the Ironcliff jumped into the waves and were dragged into the life boat. Some of the men were unconscious when rescued. Soon after the Ironcliff sank in shallow water. She will probably be a total loss.

The storm today was even worse than that of October 25th and 26th. The wind blew sixty miles an hour.

STORM EASIER FARTHER NORTH.

MILWAUKEE, Wis., Nov. 10.—It is raining here today but there has been no gale such as prevails towards the southern end of Lake Michigan. The Goodrich steamer Indiana, which left Chicago last night, arrived here safely on time. She reports a rough trip. A few other vessels which are due here are expected shortly.

Agents of all of the steamboat lines in the city report all vessels due here accounted for. The wind is blowing about twenty miles an hour in this vicinity and the weather man says the storm is rapidly passing over this section towards northwest.

THICK WEATHER AT CLEVELAND.

CLEVELAND, Ohio, Nov. 10.—Probably the thickest weather of the season prevailed on Lake Erie today. A dense fog was accompanied by a heavy down-pour of rain. Inquiry at the offices of leading vessel owners and ship brokers developed that while they had received word of a heavy gale prevailing on the upper lakes no disasters had been reported.

The local forecaster states that a heavy northwest gale will prevail over the lower lakes within a few hours.

LOST OFF PELEE ISLAND.

POINT PELEE LIGHTHOUSE, Lake Erie, Nov. 10.—The steamer J. P. Donaldson lost two of her consorts at 2 o'clock this morning six miles southeast of the Dummy light house. The missing boats can not be sighted today, and it is feared they have foundered in the gale. Each boat carried a crew of about six men.

SCHOONER ASHORE.

ST. JOSEPH, Mich., Nov. 10.—The schooner Lena M. Nielson, lumber laden, from Ludington for Benton Harbor, is on the beach south of here. She tried to make this harbor early today but the storm was too strong, and she drifted south. Two tugs tried to tow her into the harbor but were unsuccessful. The schooner is manned by Captain Jacobs and crew of nine. Four of the crew were taken off by the life saving crew, when they broke their oars. The life savers then beached their boat and are following the wreck down the shore. There is little hope for the vessel.

PROBABLY THE TERESA.

Vessel at Cat Island Disarmed Warship Flying American Flag.

NASSAU, N. Y., Nov. 10.—The steamer ashore off Cat Island, supposed to be the abandoned cruiser Infanta Maria Teresa, is now described as being a disarmed warship flying the American flag, showing signs of having been on fire and having leaked slightly. She stranded in an exposed position Thursday night last.

CONTROL THE HOUSE

Little Doubt of a Republican Majority.

That Party May Have Thirty to the Good.

Several Doubtful Districts to Hear From.

Republican Chairman Babcock Discusses the Victory and Its Advantages to the Administration.

CHICAGO, Nov. 10.—Dispatches to the Associated Press up to 11:15 a. m. today from 313 out of 357 congressional districts show that the republicans have elected 183 and the democrats and fusionists 164. There are still ten doubtful districts.

CHAIRMAN BABCOCK CLAIMS.

WASHINGTON, Nov. 10.—Chairman Babcock, of the republican congressional committee believes this morning that the republican majority in the next house will reach twenty.

He figured on only thirteen last night, but is now convinced that the manifest drift in the west, when the returns are all in, will show that enough districts, now doubtful, have been carried to swell the majority to twenty.

Mr. Babcock says that the gains in the west are due to the desire of the people to endorse the administration and to express their satisfaction over the return of prosperity. The republicans carried five districts west of the Missouri which they hardly hoped for, but were offset by the loss of four districts in New York and one in Massachusetts, so that Mr. Babcock's original calculation as to the result proved approximately correct.

Mr. Babcock says that the public hardly realizes the full extent of the republican victory on Tuesday. Even more important, he says, than the fact that the next house will be republican is the sweeping change in the senate where the fruits of Tuesday's election will give the republicans eighteen majority.

"That majority cannot possibly be overcome for eight years," said Mr. Babcock, "and for at least that period the business interests of the country are safe. Republican policies must prevail for that length of time. Even if the next house and the next president should be for free silver a republican senate would block their path.

"Besides, the majority in the senate will give us a clean working majority there for the enactment of our policies without the embarrassment coming from narrow and unstable majorities. There need be no deals with kickers.

"We will have a republican majority in sufficient number to work freely and what we do can be done with the knowledge that our legislation will have ample time to vindicate itself before a hostile senate can be elected to upset it."

At democratic congressional headquarters they had no new figures this morning. They did not concede the house, claiming that the returns from many districts were yet too meagre definitely to determine the result.

Fraud and corruption was charged against the republican management by the democratic managers.

REPUBLICANS LOSE NEBRASKA.

OMAHA, Nov. 10.—Noon.—Chairman Schender, of the republican state committee, concedes election of Poynter, fusion candidate for governor, by 1,000. Balance of ticket resulted in about same portion. Republicans will have a majority of four on joint ballot.

CRITICAL AT PANA.

Negro Miners Shoot at White Citizens.

The Situation Is Serious and There May be an Uprising Against the Colored Men.

PANA, Ill., Nov. 10.—William Lynch, who was employed by the Pana Coal company up to the time of the strike, has been shot at by negroes and run into the house. Then they shot through the house of a widow, Mrs. McIntyre, who was taking care of a sick daughter. The negroes in the "Flat Hall" district came running out and began to shoot in all directions. They kept shooting until the militia arrived on the scene. When the shooting began many women and children ran to Captain Butler, of Company B, for protection. As far as known, no person was struck by the bullets. Things are in such a state that it is dangerous for any one to go out in the mining district at night. The citizens say if something is not done before long there will be an outbreak and every negro and operator will be killed. It was impossible to arrest any of the negroes.

TO PRISON FOR LIFE.

Assassin of Austria's Empress Is Tried and Sentenced.

GENEVA, Switzerland, Nov. 10.—The Italian anarchist, Luigi Lucheni, who stabbed and killed Empress Elizabeth, of Austria, on September 10th, last, in this city, was placed on trial here today.

The court was crowded and the prisoner was strongly guarded, but there was no excitement. Lucheni was sentenced to rigorous imprisonment for life.

FIT ALL FOR WAR.

French Fighting Ships to be Made Ready.

Lord Salisbury Says America Is a Menace to the Peace of Europe.

PARIS, Nov. 10.—The Matin says that at a council of the admirals held yesterday, it was decided to fit out all the French war vessels available and thirty reserve ships have been ordered into commission.

The newspapers of this city, notably the Gaulois and the Figaro, express satisfaction at the marquis of Salisbury's speech, delivered at the Guild hall banquet last night, which they consider as tending toward a peaceful solution of misunderstanding as replacing the Fashoda question on its proper ground.

AMERICA A MENACE TO PEACE.

LONDON, Nov. 10.—Lord Salisbury surprised his auditors tonight by saying that a menace to peace existed in the expansion plans of the American government.

The statement was made at the lord mayor's banquet, at which 850 distinguished guests were gathered, but the premier aroused their enthusiasm a few minutes later by declaring that no matter what might be the outcome the American program, if carried to a completion, was likely to aid British interests.

He also said the feverish conditions were opposed to the czar's disarmament plan, and that England could not forego all necessary precautions to maintain its prestige.

In regard to Egypt Lord Salisbury gave his hearers to understand that Great Britain's grip on the Nile valley had been tightened; that a protectorate in the future may be possible, but just at present the government is not ready to take that step.

There was the usual expectancy to hear what the premier had to say, and when he arose a storm of cheers swept through the banquet hall.

SMOOTH WORDS FOR FRANCE.

Lord Salisbury said:

"We have had quite recently to consider whether the question of a European war was not very near. But with great interest and consideration the result has turned out happily through the great judgment and common sense displayed by France under circumstances of unusual difficulty, which, I think, have relieved Europe of a very dangerous and threatening storm.

"While matters were in suspense the government was necessarily forced to take precautions that it should not be taken unawares. Those precautions were most prompt and effective, but the immediate necessity for them has passed off.

"There has been some surprise on both sides of the channel at the fact that those preparations have not suddenly ceased. But it is impossible to stop them at a moment's notice."

THE AMERICAN REPUBLIC.

Referring to the war preparations and asking his hearers to look at the state of the world, Lord Salisbury observed:

"The czar has invited a congress to provide for the disarmament of the world; but, while we offer our heartiest tribute to his motives and are willing to assist and sympathize with them in every way until the happy day when his aspirations are crowned with success, we must still provide precautions needful to counteract the dangers surrounding us.

"In some respects this era, this great epoch in the history of man, is marked by unhappy omens. It is the first year in which the mighty force of the American republic has been introduced among nations whose dominions are expanding and whose instruments to a certain extent are war.

"I am not implying the slightest blame. Far from it. I am not refusing sympathy to the American republic in the difficulties through which it has passed, but no one can deny that its appearance among factors Asiatic, at all events—and possibly in European diplomacy—is a grave and serious event which may not conduce to the interests of peace, though I think in any event it is likely to conduce to the interests of Great Britain." [Cheers.]

READY FOR CUBA.

Signal Corps Men Go to Join General Carpenter's Brigade.

HUNTSVILLE, Ala., Nov. 10.—Lieut. Victor Sheppard and fifteen men of company 17, signal corps, left today for Savannah to join General Carpenter's brigade for Cuba. Private Samuel Grady, of company K, eighth infantry, died today of typhoid fever.

Privates Frank Carroll, Lewis Johnson, troops H, Jesse Williams, troop K, Tenth cavalry, were convicted by a general court martial of conduct prejudicial to good order and were dishonorably discharged with imprisonment at hard labor for one year.

A WAR ON NEGROES.

White Citizens of Wilmington Adopt Extremities.

Colored Newspaper Looted by an Angry Mob.

The Plant Destroyed and Building Burned.

A Collision Between Whites and Negroes Results in Death of Six on Each Side.

WILMINGTON, N. C., Nov. 10.—The negroes not having complied with the demand of the business men by 7:30 this morning "the time fixed," a column of 500 armed whites assembled at the corner of Market and Fifth streets and at 8:30 o'clock marched to the office of the Daily Record, the negro newspaper, and destroyed all material found in the building. The building took fire but some assert that this was accidental.

Those in command of the white men say they had no intention of firing the building. As soon as it was discovered that the building was on fire the leaders sent for engines and the flames were confined to the Record building.

On the south only twenty feet distant, is St. Lukes, one of the largest negro churches in the city, and on the north, within twelve feet a frame building occupied by negroes.

The Record building is a wreck, being almost totally burned.

Excitement is intense as it is feared negroes will attempt to retaliate tonight. The streets are now full of armed whites, and at least 1,000 men will be on guard tonight. The column that moved to the Record office was composed of the best citizens of Wilmington and even ministers were either on march or guarding the city with Winchesters.

The negro laborers in the Champion compress, more than 800, became terrorized about 11 o'clock by wild rumors of trouble and rushed in the streets. They were finally somewhat quieted and dispersed in small squads to their homes. At 11:30 a. m. serious trouble occurred in the First ward. Three white men and three negroes have been killed.

Large companies of armed citizens have gone to the scene. The negroes are reported to have retreated but are being quietly reinforced by laborers from the compress. Fayetteville has been telegraphed to for help.

NEGRO FIRED FIRST SHOT.

A representative of the Associated Press has seen a statement sworn before a notary public from a reputable citizen in which is positively stated that the first shot fired in the trouble in the First ward was fired by a negro.

As a result of the fight William Mapo, a well known and popular young man, is fatally wounded in the side. Bert Chadwick is wounded in the arm while three negroes whose names cannot be ascertained are killed and one other wounded.

Neighboring towns are said to be sending to the rescue large delegations of white citizens on special trains. One hundred armed men from Fayetteville will arrive at 2 p. m. All business is suspended.

STORY IN DETAIL.

WASHINGTON, Nov. 10.—A Star special from Wilmington, N. C., says:

Events have moved quickly in Wilmington this morning and the white people have made good their threats to take vengeance upon the negro newspaper which published the editorial derogatory to white women. At 7:30 o'clock the negroes not having responded to the demand for the removal of the press of the Record (the negro newspaper), ex-Representative Waddell, the chairman of the white committee of twenty-five, repaired to the light infantry armory, where he was to meet the citizens by appointment. Eight o'clock was the last hour of grace for the negroes to reply and that hour passed without an answer being received.

The citizens then waited half an hour for reinforcements. In the meantime armed men had begun to gather in the wide street in front of the armory.

They carried rifles, shotguns and ammunition and the assemblage included some of the most solid citizens of the town. At 8:30 o'clock the procession, headed by ex-Representative Waddell and the committee of twenty-five, moved in the direction of Seventh and Nunn streets, where the Record printing shop is located.

All along the line of march the procession was joined by armed citizens and when the negro quarter was reached the negroes could be seen a few blocks away, running into their houses.

When the crowd arrived in front of the Record office, a two-story frame building, picket lines were thrown out across the streets and squads of men sent to squares in the neighborhood. Leader Waddell, with rifle on his shoulder, went to the door of the building and knocked, but there being no response, the door was soon burst open. The citizens surged into the place and commenced the work of destruction. The furniture was smashed and thrown into the street, the floors were gutted of moveables and the building was fired and destroyed. Some one turned in a fire alarm and when the engines responded the crowd discharged their weapons and a fusilade of gun and pistol shots, cheers and shouts filled the air.

The affair was soon over, however, and no one was hurt. The publishing house was destroyed, but the neighboring property saved. The colored editor, Manley, his brother and their associates have fled, and could not be found by the citizens. After destroying the printing house the marchers returned to the armory where they had left a rapid fire machine gun, mounted in a wagon ready to be dispatched to the scene if a battle should occur. The leaders of the crowd said subsequently that it was not the intention to burn the Record building; that it was the work of some rash persons or by accident and did not have concurrency of the committee of twenty-five.

Today's action of the whites was the sequence of yesterday's meeting at the county court house and of the committee of twenty-five in the afternoon as a result of which negroes were given until this morning to return an answer to the demand for the removal of the press and the cessation of the publication of the Record.

Last night was an anxious one for the citizens in the residence section. About 6 o'clock a street car came into the business section and reported that the negroes had fired into it and that the passengers had returned the fire. A car loaded with armed men was soon speeding toward the scene of the trouble, but the offenders escaped.

The entire eastern end of the town was aroused and armed men were on the street cars, on every corner and patrolling the dark streets.

In the negro district thirty or forty young negroes were assembled but they were not armed and not violent, and the older men said they did not contemplate trouble and sincerely hoped for peace. All night long the whites kept guard about the business and resident sections, but no incident occurred to disturb the night.

At 10:30 a. m. the scene shifted to another section of the city. Scarcely had the marchers disbanded at the armory before word was passed along that the 400 or 500 negro laborers of the great cotton compress had knocked off work and were assembling. The armed men hurried to the river front and took positions at the head of the streets leading to the docks. The negroes gathered in groups of fifteen or twenty, huddled together, and apparently very much excited. They were soon in a state of panic. Their wives had hurried to them with reports that the whites were burning the negro quarters and were shooting the people and begged their husbands to come home, so the whole force quit work. The white leaders endeavored to calm the excited men, told them no harm was intended and advised that they return to work. There was no violent talk nor threats by the negroes. In all the disturbances the local authorities made no show of asserting themselves and not a policeman was around.

The preservation of order is practically vested in a committee of twenty-five, who are now trying to restore order, quiet the situation and hold in check the reckless element among the whites. The rapid fire machine gun on a wagon, manned by a crew armed with Winchesters, was brought down in front of the postoffice, but on the advice of the leaders was halted there.

Soon after 11 o'clock word was brought that reinforcements were needed in the negro section of Brooklyn. The men were sent. Twenty minutes later news came that there had been a collision between the whites and blacks, and that blood had been shed. As a result of the trouble at Brooklyn it is believed that the number of negroes who have been killed will number four. A white man named Mayo who was shot in the stomach has since died. Another white man was hurt. The situation is quiet at the scene of trouble now. The negroes have gone into their houses.

Squads of men are now halting all negroes on the street and taking their pistols from them wherever found.

EIGHT NEGROES KILLED.

WASHINGTON, Nov. 10.—A later dispatch to the Star says: Between 1 and 2 o'clock there were several skirmishes. The total casualties at 2 p. m. were: Eight negroes killed, two wounded and three white men wounded—Mayo, Chadwick and Piner. Mayo is not dead as before reported but is shot through the lungs. About 1:30 two white men passing a house were fired upon. A detachment immediately surrounded the house and took away five negroes. It was at first proposed to kill them on the spot, but it was finally decided to put them in jail. Another negro in the house broke and ran, but after proceeding half a square was shot dead. The negro who shot Mayo was recognized, it was claimed, and a detachment found him at his house. He was riddled with bullets and left dead. The reinforcements from Goldsboro have been turned back and the committee of twenty-five is considering means of [illegible] The plan most in favor is to appoint a sub-committee of six or ten men to have supreme charge of the city, superseding the mayor and other authorities.

Special trains are being run into Wilmington from other towns with reinforcements of arms. Goldsboro has started 500 men. Laurinburg has started 150 and other places have offered help if needed.

The light infantry, a regular state militia organization, will probably take command of the situation here, and its officers directly patrolling and guarding the city. It is understood the governor has given his sanction to this plan, and if carried out it will have a salutary effect.

The local detachment of United States naval reserves, in fatigue uniform and dragging their new one-pounder rapid fire gun, are now at the scene of trouble, together with the light infantry and several hundred armed citizens. But there is nothing to shoot at. The negroes have disappeared.

THE COURTS.

The Justices Are Again Busily at Work.

Sheriff Melching Has Gone to Oklahoma After H. A. Bixby—Interesting News in Court.

Now that election is over business in the justice courts is again on the boom. For several weeks preceding election matters were quiet, but conditions are changed. When THE SENTINEL reporter made his rounds this morning 'Squire France had disposed of four cases, Justice Huser of one and another was on trial before Justice Ballerman.

Justice France disposed of the following cases: Gustave Bonnace was fined $1 and costs for assault and battery on Leo Lenore Glasgow; Christian Hess was fined $1 and costs for assault and battery on Philip Rohm, and Phillip Rohm was fined $1 and costs for drunkenness. Hezekiah Kendall was acquitted of a charge of provoke preferred by August Cornelle. Justice Huser heard the evidence in the cruelty to animal case against Tom P. Smith, and Justice Ballerman was trying a civil case.

Sheriff Melching has gone to McAllister county, Oklahoma, after H. A. Bixby, the alleged attorney who left Fort Wayne between two days after disposing of mortgaged property. The sheriff has been on the hunt for the young attorney for several months and some days ago located him in Oklahoma and ordered his arrest. Bixby will probably serve a term in prison.

COUNTING THE VOTE.

Inspectors Met in the Circuit Court Room.

The Work is Progressing Quite Rapidly.

Hon. C. F. Muhler Is Acting as Chairman.

The Majorities Will Not Vary Much From Unofficial Return—Township Vote.

The Allen county election inspectors met this morning in the circuit court room and organized into a canvassing board to canvass the vote of the county cast at Tuesday's election for state and county officers. Hon. C. F. Muhler, of this city, was elected chairman, and Louis Jocquel and Ed J. Ehrman, reading clerks. County Clerk Metzgar is recording the vote for county officers and Clerk-elect Belot is recording the vote for state officers.

Many of the inspectors have served heretofore under the Australian law and the work is progressing more rapidly than heretofore, thirty-three precincts, more than one-third the county, having been canvassed at noon. Comparisons made with the unofficial vote do not show any material differences and the majorities for the democratic candidates will be about as estimated in THE SENTINEL yesterday.

The inspectors report that in most of the precincts some of the ballots were thrown out because they were marked wrong, while several hundred voters marked in the square opposite Ralston and Hunt and Robinson and Stemen, the first names on each ticket, supposing this meant a vote for the straight ticket. But the vote was counted only for the candidate in front of whose name the mark was made.

ELECTION NOTES.

The vote given Mr. Emrick for prosecuting attorney was quite a compliment to him. His majority will be third highest of the county officers, and considering that the total votes for Messrs. Emrick and Abel was 200 or 300 more than that cast for the leaders, Meyer and Melching, shows that the voters had confidence in the democratic candidate.

Congressman Robinson made a wonderful race in Allen, his home county. He carried every township and the only ward in the city which he lost was the Fifth, which gave Mr. Stemen eight majority. The workingmen especially showed their friendship for Mr. Robinson, who has at all times been their friend in and out of congress.

Bob Shirley ran thirty-five votes behind the state ticket in his own township, Maumee.

Justice Huser's commission expired yesterday, and as he cannot get his new one for a week, he is in a quandary to know whether or not he can legally act as justice.

Harry France's term does not expire until next October. Should he serve out the term, to which he was elected Tuesday he will have been justice of the peace for twenty-one years and seven months, consecutively.

Sheriff Melching will commence his new term November 17. Auditor-Elect Meyer will also take possession of the auditor's office on the 17th.

Mr. Emrick's term commences next October and Mr. Gillette will not be recorder until June, 1900.

THE TOWNSHIP VOTE.

The inspectors of Wayne township met yesterday afternoon and canvassed the vote for township officers. All the democratic candidates were elected by majorities ranging from 484 to 800. Louis P. Huser received the highest democratic vote and Mr. Flotter received the most republican votes. Christopher Kelley received the highest vote for constable.

The vote for justices of the peace was as follows:

Tancey, democrat, 4,684; Strass, republican, 4,000; France, democrat, 4,490; Flotter, republican, 4,014; Huser, democrat, 4,687; Tyler, republican, 3,808; Ballerman, democrat, 4,628; Covell, republican, 3,814.

The vote for constables was as follows:

Kennelly, democrat, 4,650; Engle, republican, 3,818; Ford, democrat, 4,635; Sutton, republican, 3,821; Kelly, democrat, 4,660; Latty, republican, 3,795; Roobke, democrat, 4,669; Reed, republican, 3,820.

ROBINSON'S MAJORITY.

The most reliable figures and indications now point to a majority of over 1,200 for Congressman Robinson in the Twelfth district. Allen county will give him at least 2,500 majority. His majorities will run in the district about as follows, according to telegraphic advices received late this afternoon by THE SENTINEL from all counties in the district:

Allen	[illegible]
DeKalb	[illegible]
Whitley	[illegible]
Total	[illegible]

The majorities received by Dr. C. B. Stemen in the republican counties of the district are as follows:

Steuben	[illegible]
LaGrange	[illegible]
Noble	[illegible]
Total	[illegible]
Robinson's majority	[illegible]

THE cold wave predicted for tonight is a little late in arriving. It should have been here Tuesday.

THE die is cast and Col. Ted Roosevelt has two years in which to demonstrate that he is "a bigger man" than William McKinley.

THE voters do not, evidently, fear the domination of Mr. Bailey, of Texas, in the Twelfth district. The handsome majority given Hon. James M. Robinson must be taken by republicans and will be taken by democrats as an emphatic approval of the congressional career of Mr. Robinson as well as an endorsement of the principles for which he stands.

IF SOMEBODY will line that good old hymn, "When carking cares corrode the heart," democrats generall will join in with spirit and some assistance will doubtless be given by Allen county republicans.

RETURNS from Pennsylvania prove that one Swallow cannot make election day a disaster for Matthew Stanley Quay any more than one swallow can make a summer. In Pennsylvania Senator Quay is not merely the boss; he is the proprietor.

SECRETARY ALGER has already discovered in the election returns a pronounced vindication of his management of the war. The president should call off his board of inquiry. It is digging up some facts that will not dovetail well into the war secretary's vindication.

THE general traffic manager of the Canadian Pacific railroad, estimates that $30,000,000 has already been expended in seeking for Klondike gold. Certainly the amount of gold which has thus far been brought out amounts to no such sum as this. The figures confirm the popular impression that the gold fever was like other diseases, most unfortunate for the victims. Had this $30,000,000 been invested at home, backed by the same amount of laborious effort, the returns would certainly have been larger.

EITHER the wheat crop of 1898 has been greatly underestimated or else the amount of wheat remaining in the hands of the farmers is not nearly as large as has been generally calculated. Since August 1 the receipts of wheat at the various centers have aggregated upwards of 85,000,000 bushels, while last year, when the farmers made no effort to hold back their crops, the receipts during the same period were only 83,000,000 bushels. Undoubtedly this year's harvest was larger than last year's, but the increase is not so great as to account for large reserves now in the hands of the producers. It may safely be taken for granted that if the price of wheat goes much higher this year the increased profits will go to the speculator and not to the farmers.

THE republicans will have control of the next legislature and will therefore elect a republican to succeed United States Senator Turpie. The contest for the honor promises to be far more exciting if not more bitter than the struggle of two years ago, which resulted in the election of United States Senator Fairbanks. Judge Robert S. Taylor has been an avowed senatorial candidate for two years, and during the present campaign has unsparingly devoted his time, his energies and his means to the success of the republican party in the state. Other candidates who for greater or less periods have been pushing themselves to the front are J. Frank Hanly, of Lafayette, and Frank B. Posey, of Evansville. Albert J. Beveridge, of Indianapolis, has been tentatively a candidate during latter weeks of the campaign and has a following of some strength in Indianapolis. The re-election to congress of Hon. George W. Steele from the Eleventh district has brought Mr. Steele out formally with announcement of his senatorial aspirations. It has been suspected that he would be a candidate and he will be the most formidable candidate against the balance of the field. Congressman Steele is a wily politician and is believed to have the secret support of Senator Fairbanks. Since the successor to Senator Turpie is to be a republican, people from the northern part of the state will generally, regardless of political considerations, be warmly favorable to the candidacy of Judge Taylor. But if Steele is a candidate he will be in front in the running.

CREEKS FIGHTING.

Trouble Reported Between the Full Bloods and Treaty Leaders.

EUFAULA, I. T., Nov. 10.—It is known here that there has been fighting at Okmulgee, the capital of the Creek nation, where the council met Tuesday.

For forty-eight hours rumors of trouble have been drifting in from Okmulgee, which is forty miles off the railway and without telegraph or telephone service. It is known, however, that the full bloods have made an attack on the treaty leaders at Okmulgee and that at least one man has been killed and seven or eight wounded. All the Indian police at Agent Wisdom's disposal have been ordered to Okmulgee and soldiers will follow. The white people feel able to take care of themselves. The only fear is for the half-breeds who voted for the treaty.

THE TREATY CARRIES.

CHOCTAW, I. T., Nov. 10.—The Creek returns are all in and show that the treaty has carried. Twelve hundred full-bloods stayed away from the polls.

The council is in session at Okmulgee. The full-bloods' chief threatens to kill the people who voted for the treaty. Indian police were ordered by the agent to Okmulgee. Chief Isparhecher threatens to burn towns in the Creek Nation along the Missouri, Kansas and Texas railway. The Indians are very restless.

The Rough Riders with their trained western bronchos give the finest exhibitions of horsemanship ever seen in this city and receive much enthusiastic applause. The show will continue throughout the week.

THE BELVIDERE LIBELED.

Sailors of the Whaling Bark Say They Were Held Prisoners.

SAN FRANCISCO, Nov. 10.—Fifteen sailors of the steam whaling bark Belvidere filed a libel against the bark in the United States district court. They allege that they shipped for a twelve months' whaling cruise and that they were frozen in all winter in the Arctic, near Point Barrows, and that when the vessel got away and reached Port Clarence at the expiration of their term of service they asked to be discharged. They aver that the master, Captain Mallard, not only refused to comply with their requests, but kept them virtually prisoners on board the bark for eight months longer. Charges of cruelty are also made and damages are demanded.

Rev. L. L. Henson will next Tuesday evening install Rev. W. D. Chipp as pastor of the First Baptist church at Bluffton. The new pastor accepted the call a month ago, coming from Rochester, N. Y.

MORRIS-WHITE.

Quiet Wedding Takes Place at the White Homestead.

Miss Clara Pieper Becomes the Bride of Carl Bode—A Greek Weds Greek—Other Weddings.

At the White homestead, yesterday afternoon, occurred the marriage of Miss Grace White, daughter of Mrs. James B. White, to William S. Morris, of Richmond, Va. The ceremony was performed by the Rev. D. W. Moffat, pastor of the First Presbyterian church, the ring service being used. Only relatives and a few intimate friends were present. The bride wore an elegant gown of white crepe de chine, with silver embroideries, the bodice trimmed with rose point lace and the skirt with lillies of the valley. A bouquet of lillies of the valley completed the costume. Little Virginia White, a niece of the bride, was ring bearer and she looked sweet in a simple but beautiful dress of organdie. After congratulations were tendered the couple a wedding supper was served by Lacklin, shortly after which the bridal couple left on the Pennsylvania railroad for Chicago, from whence they go to Richmond, Va., their future home. The bride's travelling gown was a blue tailor-made suit. The guests from out of the city were as follows: Mr. and Mrs. Will Kelley, of Chicago; Mrs. Taylor Kelley, of St. Louis; Mr. and Mrs. G. L. Briggs, of Auburn, N. Y.; Dr. B. A. Graham, of Indianapolis; Mrs. F. L. Swasey and Miss Grace Swasey, of Richmond, Va.; Miss Bessie Thompson, of Sidney, Ohio.

BODE-PIEPER.

Yesterday, at Emanuel Lutheran church, occurred the marriage of Carl Bode to Miss Clara Pieper, Rev. Wambsganss officiating. The bride is the daughter of Mr. and Mrs. Ernst Pieper, of this city, and the groom is a resident of Cleveland, where the couple will make their future home.

SEA WALL GIVING WAY.

Heavy Weather on Lake Michigan Doing Damage to Chicago's Water Front.

CHICAGO, Nov. 10.—Lake Michigan, being swept by a northeast gale, is tearing great holes in the sea wall and the paved beach along the lake front. The Lincoln park commissioners had just gotten well under way repairing the serious damage done by the storm of October 25, but the heavy breakers have now put the whole shore line in a worse shape than ever.

The action of the waves has undermined the outer driveway in Lincoln park, after washing over and displacing the heavy granite blocks with which the beach is paved. Along the north shore drive from Bryon street south the water ran across the roadway and made it impassable.

The surf played havoc with the sea wall on the lake shore drive and eat its way into the dirt embankment. Several vessels are overdue in Chicago and some apprehension is felt for their safety.

DIED IN HIS CANOE.

While on a Hunting and Fishing Excursion Edward Hathaway Fell Dead.

Information has been received by M. L. Jones of the death of Edward Hathaway at Berlin, Wis., which occurred on the 29th of October. The deceased visited Mr. Jones in this city several times, making numerous acquaintances while here. He was an enthusiastic hunter and fisherman, and it was while enjoying those pursuits that he fell dead with heart disease while floating on the Fox river in his canoe. His dead body was discovered the following day below a falls not far from Berlin, and a post-mortem revealed that his death was not due to an accident, but to the cause stated. Mr. Hathaway had planned a trip to Fort Wayne for the week following his death, intending then to go to Rome City and be the guest of Mr. Jones at the latter's cottage.

Many a woman throws away the flower of her youth—her beauty, her amiability and her capacity for wifehood and motherhood—without realizing it. There is no sadder sight than that of a young woman who has for years been bearing up bravely and silently under physical tortures that would drive a man to the mad-house.

Thousands of women suffer in this way and ask neither aid nor sympathy. They realize that they are the victims of weakness and disease of the distinctly womanly organism. They do not consult a physician because of the well-founded fear that he will insist upon disgusting "examinations" and "local treatment." Dr. Pierce's Favorite Prescription does away with all necessity for these ordeals. It cures in the privacy of the home. It restores health and strength and vigor to the delicate organs concerned in wifehood and motherhood. It tones, invigorates and builds up the nerves and transforms nervous, overwrought, sickly invalids into healthy, happy wives and mothers. Dr. Pierce is an eminent and skillful specialist who has been for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. He will answer, without charge, all letters from ailing women. The "Favorite Prescription" is for sale by all good dealers.

"I suffered from womb trouble for about twelve years," writes Mrs. Harry Pomeroy, of box 365, Monona, Clayton Co., Iowa. "I doctored with six different physicians, but found only temporary relief. I then used six bottles of Dr. Pierce's Favorite Prescription and three of 'Pleasant Pellets.' I am a new woman. I hope and pray that this will induce other poor sufferers to use Dr. Pierce's medicines and be cured."

MADE A LITTLE MONEY.

Ladies of the Trinity Episcopal Church Settle Up Affairs of "Ben Hur."

Mrs. A. D. Guild this morning announced that the ladies of Trinity church, with the kind assistance of R. H. Carnahan, had completed the auditing of accounts and receipts of the spectacular production of "Ben Hur," and that after everything is paid there will be a balance of about $75. While it is small remuneration for the great amount of work performed by the ladies they are glad that it is no worse. The promoters of the attraction feel very grateful towards everybody who took part in the entertainment.

The Wednesday Afternoon Pedro club held a meeting at the home of Miss Velma Ohneck, north of the city, yesterday afternoon. The guests of honor were Mrs. Edward Ellis, of Detroit, and Mrs. Walton McConnell, of Chicago. Miss May Hedekin won the first prize, a pair of silver embroidery scissors, and Miss Edith Zollars won the second prize, a hand painted china picture frame. At 5 o'clock a dainty three-course supper was served. The next meeting of the club will be held at the home of Miss Zollars.

COMFORTING WORDS TO WOMEN.

The Surgical Chair and its Tortures May be Avoided by Women Who Heed Mrs. Pinkham's Advice.

Woman's modesty is natural; it is charming.

To many women a full statement of their troubles to a male physician is almost impossible. The whole truth may be told to Mrs. Pinkham because **she is a woman, and her advice is freely offered to all women sufferers.**

Mrs. O. E. Lamp, of 19th and N Sts., Galveston, Texas, whose letter is printed below, was completely discouraged when she first wrote to Mrs. Pinkham. Here is what she says:

"Dear Mrs. Pinkham—I wrote to you some time ago, telling you of my ills, but now I write to thank you for the good your remedies have done me. I have used two bottles of Lydia E. Pinkham's Vegetable Compound, three packages of Sanative Wash, and one box of Liver Pills, and to-day I call myself a well woman. I suffered with backache, constant headache, whites, sick stomach, no appetite, could not sleep, and was very nervous. At time of menstruation was in terrible pain. Your medicine is worth its weight in gold. I never can say enough in praise of it. I have recommended it to many friends. If only all suffering women would try it, there would be more happy homes and healthy women. I thank you for the change your medicine has made in me."

Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice, have saved thousands of women from hospital operations.

The lives of women are hard: whether at home with a ceaseless round of domestic duties or working at some regular employment, their daily tasks make constant war on health. If all women understood themselves fully and knew how exactly and soothingly Lydia E. Pinkham's Vegetable Compound acts on the female organs, there would be less suffering.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills

OFFICE CHANGES.

Several Pennsylvania Clerks Deservedly Promoted.

William Mullahy, Michael Breen, George Gerard and Fred Thebold Share in the Honors.

By the creation of a new position, made necessary by the increased traffic on the road, a number of changes have taken place in the clerical forces of Trainmaster C. E. Walton and Yardmaster F. E. Tibbles, of the Pennsylvania. William F. Mullahy, clerk at the east yard office, was transferred to Mr. Walton's office, and Michael Breen was promoted from night clerk at the yards to the position vacated by Mr. Mullahy. George Gerard, caller of train crews, was given the night clerkship, and Fred Thebold was employed as caller, vice Mr. Gerard. All these changes are in line of promotion and they are all merited. G. Beeching, a switchman, resigned his position in the east yards, to engage at some other work.

THE B. F. O. T. AUXILIARY.

The auxiliary composed of the wives of the members of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen, Order of Railway Conductors and Brotherhood of Railway Trainmen, will give a reception and dance at Miss Mulqueen's dancing hall Friday evening, Nov. 18th. The proceeds will be used for the railroad hospital rooms. The object is a very worthy one and the entertainment deserves a liberal patronage, especially by the railroad people. The use of these rooms are given to any man hurt or sick in train service, whether he is a member of any of the orders or not, and any member of the brotherhoods is eligible to the use of the rooms, whether he is in active service or not.

TWO SHOPMEN HURT.

Ed Tierney had the misfortune to lose a portion of the little finger of his left hand yesterday. While working in the Pittsburg machine shop a pedestal cap fell on the digit and crushed it so badly that Dr. James Lomas, the attending surgeon, found it necessary to take off a portion of the wounded member. Another unfortunate was Machinist Frank B. Connors, of the same shop, who was the victim of a misdirected blow of a sledgehammer. He received an ugly gash over the left eye, which Dr. G. C. Stemen had to stitch two or three times. Mr. Connors was holding a stay-bolt punch when he received the blow.

WORK TRAINS IN TROUBLE.

Two work trains on the Pittsburg road had some cars off the tracks at Park Manor, Chicago, at an early hour this morning. The tracks were blocked for several hours. Passenger trains 5, 15 and 20 were delayed, being compelled to detour via the Panhandle, striking that line at Bernice. Freight trains were also delayed from one to three hours.

FUNERAL OF CONDUCTOR KELLER.

The remains of the late Conductor Henry W. Keller, whose sad fate was chronicled yesterday, were brought to Plymouth last night and prepared for burial. Today they will be taken to Hammond, where the funeral will take place tomorrow morning. A number of the dead conductor's Fort Wayne friends will attend the obsequies.

General and Local Gossip.

Nickel Plate Brakeman Deetrick is sick.

Switchman C. Wyburn, of the east yards, is sick and off duty.

Pittsburg Machinist Patrick Bresnahan is sick and off duty.

Nickel Plate Engineer Joseph Brucht is taking a few days' rest.

W. O. Miller, a brakeman, has resigned his position on the Nickel Plate.

W. S. Danes, of Peru, was in the city over night, on business for the Wabash.

U. H. Kohler, passenger fireman on the Pittsburg, has taken a lay off for the purpose of hunting quail.

Theodore Thieme, manager of the Wayne Knitting mills, went to Toledo this morning in the interest of the firm.

W. E. Buck, the tank builder who sustained some painful injuries a few days ago, has resumed his duties in the Pittsburg shops.

L. F. South, a car builder in the east shops, has been taking a few days' lay off to attend to some private business.

M. Gindelsperger, a boilermaker, who worked at the Bass works some time ago, this morning resumed his old place in that establishment.

George Cassidy, the Pennsylvania yard conductor, who sprained one of his ankles several days ago, was able to resume work yesterday.

Donald McDonald, son of E. H. McDonald, has become an apprentice in the Pittsburg machine shop, commencing work there this morning.

Engineer Ed Wolf and Fireman Stoner, of the Nickel Plate, who are enthusiastic Nimrods, have taken a few days' lay off in which to hunt quails and ducks.

F. Shuler, a brakeman on the Nickel Plate, who has been in the through freight service several weeks, has resumed his old place in Conductor Overholser's crew.

A. Herr, a car inspector, has gone to Lima, Ohio, to take the place in the Pennsylvania yards a few days of J. J. Steine, who is off duty on account of the death of a relative.

George Sunley, while at work in the east yards Tuesday night, ran against a switch stand and severely injured one of his knees. He is a switchman.

Another strike is said to be due on the Chicago and Southeastern, the men again becoming uneasy about back pay. This will be strike fourteen, it is said, whenever it matures.

Thomas Rodd, chief engineer of the Pennsylvania lines, and a party of friends are hunting in the vicinity of Middlepoint, Ohio. They came here last night and this morning left for the hunting grounds in the Pennsylvania hunting car.

Joseph Nichter, machinist in the Wabash shops, is off duty on account of sickness.

Ed McDonald and P. T. Walsh, engineers on the Pittsburg road, have resumed their respective positions on the road.

A. Kantz, engine repairer in the Pittsburg round house, fell from a locomotive tank yesterday and was injured severely.

Fred Rohling, boilermaker, had an ankle sprained at the Wabash shops yesterday and will be on the absentee list a few days.

Harry Noll this morning resumed the place in the Wabash machine shop that he vacated last April when he enlisted in the Twenty-eigth battery.

Grand Rapids and Indiana trains from the north this morning were covered with snow. At Kalamazoo and north of that point the fall was considerable, being six inches in places.

Nickel Plate Brakeman C. F. Wishart, who had been off duty a few days on account of the election and some private business which required attention, reported for work yesterday.

Judge Diehl, of Lima, Ohio, has overruled the motion to have the sale of the Ohio Southern to the first-mortgage bondholders set aside, and the sale will now be confirmed, it is expected.

Jacob Hilgeman left this morning for New Orleans, to install some machinery in the immense city lighting plant there. The work will keep him in the southern metropolis a week or two.

K. Meier, who had a nervous affection not unlike paralysis, has recovered, and yesterday resumed his place in the east car shops. It was feared at one time that the malady would permanently disable him.

Wabash Machinist Michael Hausbach is undergoing the painful operation of having some iron dust removed from his eyes. The metal got in the optics yesterday and is being removed with difficulty.

Representatives of southern lines are becoming numerous at the northern railroad centers, and they say that tourist travel south already shows much activity. A belief exists that travel in this direction will this winter be exceptionally heavy.

The rivalry between Anderson and Muncie as to the volume of business done is very fortunate for the Big Four Bee-line division. About six months of each year Anderson will ship the most freight, and the other half of the year Muncie will lead.

W. Koch, a Pennsylvania car builder, had one of his feet severely bruised yesterday by a large plane falling upon it. Another unfortunate at the car shops is W. Veith, who had the index finger of his left hand crushed between two air brake cylinders yesterday.

John Potter, the veteran cabinetmaker in the Pittsburg shops, who a few months ago had little hope of ever being able to return to his shop duties, has almost completely recovered his health and yesterday resumed work. He had been off duty since last March.

Private car lines are being boycotted with a view of compelling them to retire from the business. Recently a line which operated over the Union Pacific withdrew from the road and sold its cars, 500 in number, to the Kansas City, Pittsburg and Gulf company.

The Baltimore and Ohio company is getting considerable advertisement out of its new train, the Royal Limited, which is being exhibited at important points on the line. Tuesday the train was at Pittsburg, standing upon a siding for three or four hours, and it was admired by 3,000 persons. Some of the visitors were treated to refreshments in the magnificent dining car. The train will be placed into service November 20.

P. A. Bonebrake, superintendent of the Indianapolis division of the Pennsylvania lines, has asked the Pittsburg officials to send a couple of class L passenger engines to haul the heavy fast trains this winter between Columbus and Indianapolis. Traffic is so heavy on this division that when one of the fast trains drops a little behind its schedule and is delayed by meeting freight trains the lost time cannot be made up with the class P engine.

The Denver and Gulf road, which is to be sold under foreclosure November 18, will be re-christened the Colorado and Southern railroad, when the reorganization is effected. This title, it is announced, has been accepted by Receiver Frank Trumbull, who is to be president of the new company, and by leading stockholders. The road will extend from Wyoming, through Colorado to Fort Worth, Tex., with possibilities of further extension toward tidewater in the future.

Engineer George Moore, of the Nickel Plate, was called to Bellaire, Ohio, yesterday, to see his brother, who was not expected to live but a few hours. The unfortunate man is an engineer on the Baltimore and Ohio road, and he was at the throttle of the engine which jumped the tracks Tuesday, near Bellaire, with such disastrous results. Three years ago this same man was nearly killed in a wreck which occurred on the Baltimore and Ohio road in pretty much the same manner as did the one which threatens now to take his life.

Jacob Backes, boilermaker, and Martin Holbrock, machinist, yesterday commenced testing the water station boilers on the western division of the Pittsburg road. The work will consume about two weeks.

A rear end collision four miles east of Wabash, yesterday, resulted in injury to Engineer Brumbaugh and Fireman King. One of the big Barnes engines ran into the rear of a train, smashing the caboose into splinters, badly crippling two cars and stripping the engine of pilot, smoke stack and exposed attachments.

The Pennsylvania company is getting its snowplows ready for business, and indications point to a necessity soon for such an implement. The company uses a gondola car for this purpose, and when there is no further use for it in that line, it is stripped of the plow attachments and returned to the freight service.

Passenger engine 170 has resumed its old run on the Nickel Plate, after being thoroughly overhauled in the Stony Island shops. Engineers Haley and Maloney will alternate at the throttle. Engine 165, also a passenger locomotive, is now in the shops for general repairs and her run, Nos. 3 and 6, on the third district, has been taken by engine 163.

Ora Ramey, ticket clerk for E. S. Philley, has resigned to accept a position in the freight office as operator and freight clerk. Mr. Ramey is an experienced clerk and will make a valuable man in his new position. C. Bradford, of Lansing, Mich., an employe of the Lake Shore and Michigan Southern at that point, will take the position vacated by Mr. Ramey.

The Pennsylvania and the Nickel Plate roads each had excursions to Chicago today, the former sending out a special at 12:15 and the latter two special trains at 3 o'clock this afternoon. The people who compose these excursion parties are chiefly citizens of the towns along the lines who go to Chicago to do some trading. No special attraction at Chicago was advertised.

PAID THE FINES.

Liquor League Settles for Certis and Bolchin.

Mayor Assessed Fines and Costs Amounting to More Than Forty Dollars—Police Notes.

Peter Certis and Frank Bolchin, the saloonkeepers arrested for keeping their saloons open on election day, were not in police court this morning, but the trustees of the Local Liquor league were there and settled the fine of $10 and costs, which Mayor Scherer assessed in each case. Officer Knock preferred the charge against Bolchin and Officer Dickson against Mr. Certis. Mayor Scherer ordered all officers to report saloons that were open on election day, and the Journal this morning charges that several were open. The mayor will investigate and call for evidence.

POLICE NEWS.

There were three train climbers before the mayor. One of them was so covered with dirt that Mayor Scherer sent him to jail that he might be renovated. The other two were ordered out of the city.

Superintendent Gorsline is desirous of locating William C. McClure, an old soldier who served during the war in the Ninety-sixth Ohio. McClure's true name is George W. Mills. He lived in Fort Wayne four or five years ago, but moved to Michigan. He came back last month. If Mr. McClure, or Mills, will call on Superintendent Gorsline he will give him some information which will please him.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was—Free trial bottles of this Great Discovery at Dreier & Bro.'s drug store. Large bottles 50 cents and $1.00.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters;' and, to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bot. at Dreier & Bros. drug store.

YOU CANNOT CURE PILES.

By Internal Remedies.

The only way to cure piles in every form is to use a remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful healing effects are felt on the first application because the medical properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made, and almost before the patient is aware of it, every trace of piles has left him.

This is one reason why the Pyramid Pile Cure has been so successful. It is applied directly where it is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so-called systems.

Its advantages over all other pile cures are these: It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid Drug Co., of Marshall, Mich., and sold by all druggists at one dollar per package.

SNOW FOLLOWS RAIN.

Sudden Change in the Temperature and Cold Weather is Promised Soon.

The drizzling rain, so typical of November weather at its worst, which has for forty-eight hours inflicted its dampness on this community, was followed this afternoon by a snow storm, which though brief, was the first respectable one of the season. Simultaneously with the appearance of the "beautiful" the cheerless situation was further relieved by a prediction from the weather clerk for colder weather and dispatches from northern Indiana and Michigan, which stated that there was a decided fall in the temperature, accompanied by gales in some places and heavy snow storms in others.

BIGH, LOW AND "THE GAME."

It is safer to pay to much for dental work than to pay to little—although quite as unnecessary. The dentist who charges you more than enough is robbing you of your money. The dentist who charges a less than enough price is robbing you of good work, and you can't afford that at any price. We charge just enough for good work. Others never charge any less and we see to it that there's no better work done than ours. That's the happy medium that makes the best dental work for every operation—and every patient.
